

# Interior/Exterior Trim Board

ARTRIM primed finger-joint & edge glued boards are the answer for every interior or exterior trim need. Made of kiln-dried, ultra smooth wood blocks each board is free of knot or defect, double primed and buffed for superior performance. ARTRIM will make any project beautiful, inside or out.

## Unsurpassed Finishing

- Dual coat 100% acrylic primer
- Vacuum process ensures even primer coat distribution
- Double buffing produces incredibly smooth finish and texture
- Sophisticated drying process guarantees quality primer adherence
- Unique handling system reduces marring

## Straight, Square, Strong & Clear

- 100% clear kiln-dried blocks – no knots, pitch or stain
- Technologically advanced micro finger-joint generates greater surface contact and tight joints for a strong, durable board
- Stringent milling standards guarantees true, smooth, square edged blocks
- Exterior grade cross-linking Polyvinyl Acetate non-structural adhesive on every core edge and finger-joint
- Glue bond is stronger than the wood itself

## Responsible

- Harvested from well managed sustainable timber plantations
- Timber plantations endorsed by the international sustainable forestry standards scheme PEFC
- Scientifically managed from seed to harvest
