Andersen®
ARCHITECTURAL
COLLECTION

A-SERIES
WINDOWS & DOORS

Create Distinction.

Whether you're looking for traditional or contemporary style, or anything in between, you'll find it in the Andersen Architectural Collection.

A-Series windows and doors, as part of the Architectural Collection, were designed in tandem with architects to provide authentic architectural style to the very last detail.

Beyond delivering the style you want, A-Series products are our best performing, most energy efficient windows and doors offering you confidence and peace of mind.

With A-Series windows and doors it has never before been so easy to dream, easy to understand your options and easy to select the windows and doors that fit not just your home, but also your vision.

For more information, visit andersenwindows.com/a-series.

A-Series casement and transom windows with White interior and exterior. White contemporary folding hardware.

A-SERIES

WINDOWS & DOORS

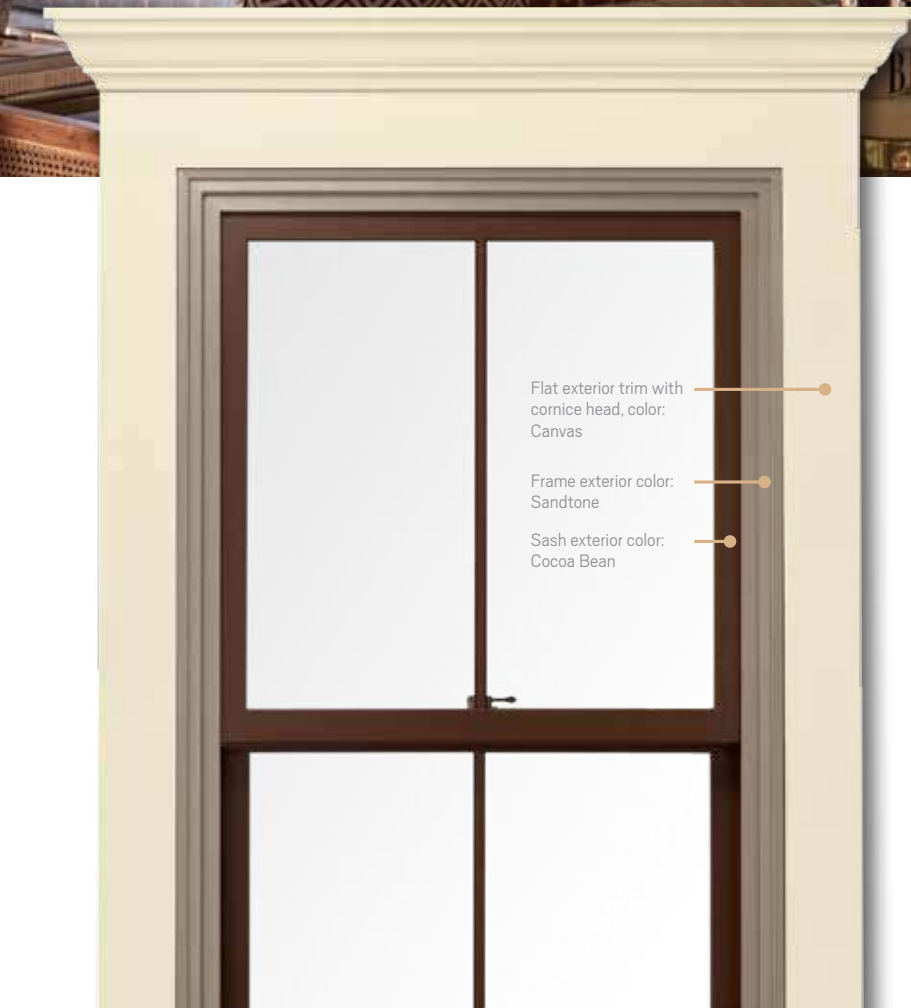

Architectural Style Made Easy.

Andersen® windows and doors make it easy to achieve architectural authenticity in virtually any home style you desire. This industry-leading, innovative approach is based on the style of home you want to create rather than on a type of window or door. The result is a series of windows and doors carefully designed with authentic architectural style in mind. Every sash, every piece of hardware and every accessory easily comes together to allow you to create the home style you're after.

A-Series casement, picture and transom windows and Frenchwood® inswing patio door with White interior and exterior; White contemporary folding hardware.

Flat exterior trim with cornice head, color: Canvas

Frame exterior color: Sandtone

Sash exterior color: Cocoa Bean

Interior finishes: Choose from 6 interior wood species and a variety of factory stain and paint options to compliment any look.

Exterior colors: With 11 different colors, you can mix and match sash, frame and trim to achieve hundreds of combinations.

CRAFTSMAN BUNGALOW

An Authentic Innovation for Authentic Style.

Your home's architectural style says a lot about you. A-Series products allow it to speak with authenticity and clarity.

That's why Andersen has created the Home Style Library. This first-of-its-kind collection of Pattern Books provides detailed illustrations and extensive descriptions of each style, with an emphasis on window and door options. From basic designs and building materials to window proportions and hardware finishes, our library will show you how to bring architectural authenticity to whichever style of home you prefer.

American Farmhouse

HOME STYLE LIBRARY PREVIEW

The Home Style Library includes classically recognized architectural styles. To view our complete Home Style Library, visit andersenwindows.com/stylelibrary.

THE ELEMENTS OF STYLE

Each home featured in our Home Style Library contains suggested combinations of Andersen® A-Series windows, doors, hardware, exterior trim and color palettes that are authentic to that home's architectural style.

The A-Series product combinations shown here were selected with the help of leading architects to create the Craftsman Bungalow home shown to the left.

WINDOWS & DOORS

Unmatched Performance. Unmatched Peace of Mind.

ENERGY-SAVING GLASS FOR ANY CLIMATE.

Andersen makes windows and doors with options that make them ENERGY STAR® v. 6.0 certified throughout the United States.

Visit andersenwindows.com/energystar for more information and to verify that the product with glass option is ENERGY STAR certified in your area.

RIGOROUSLY TESTED.

A-Series products have been exposed to extremes, going from temperatures duplicating the cold of Alaska winters to the heat of Death Valley summers, three times a day, day after day. They came through it all beautifully.

NEVER NEEDS PAINTING.

Exteriors won't flake, rot, blister, peel, pit or corrode,* so they're virtually maintenance free. Plus they hold their original vibrant colors.*

Andersen® A-Series products are available with impact-resistant glass and structural upgrades to meet the tough building codes of hurricane-prone coastal areas. See your local building code official for specific requirements. Visit andersenwindows.com/coastal for more information.

OWNER2OWNER® LIMITED WARRANTY

Most other window and door warranties end when a home is sold, but our coverage — 20 years on glass, 10 years on non-glass parts — transfers from each owner to the next. And because it is not prorated, the coverage offers full benefits, year after year, owner after owner.* So it adds real value when you decide to sell your home.

BUILT FOR YEARS TO COME.*

A-Series windows and doors are built strong to last long.* We use the right materials in the right places, including solid wood, fiberglass and our own Fibrex® composite material. These give A-Series products superior strength, stability and long-term beauty.

KEEPS THE WEATHER OUT.

With their weather-resistant seals, A-Series windows and doors can stand up to eight inches of rain per hour and hurricane-force winds.** Double-hung windows feature a dual-bulb seal, and casement windows use "refrigerator" style gaskets to help keep air and water out.

*Visit andersenwindows.com/warranty for details.

**Andersen A-Series double-hung window tested to AAMA/WDMA/CSA 101/I.S.2 A440-08 & -11 PG50.

A-Series Windows

When choosing windows and doors, you'll want to consider the style of the home you'd like to create as well as how you'd like the windows and doors to operate. With Andersen® A-Series products, you have the choices you need for a beautiful blend of both form and function.

DOUBLE-HUNG WINDOWS

A double-hung window has two vertically sliding sash (glass panels) in a single frame. Double-hung windows lift open while remaining flush with the wall, making them ideal around patios, decks and walkways. Both top and bottom sash tilt in for easy cleaning.

CASEMENT WINDOWS

Casement windows are hinged windows that open outward to the right or to the left. They're common above kitchen sinks and give you the flexibility to group in stunning combinations.

AWNING WINDOWS

Awning windows are hinged at the top and open outward. They catch breezes from the left or right and are often used above, below or alongside stationary windows.

VENTING & STATIONARY TRANSOM WINDOWS

Venting transom windows are hinged at the top and open outward. They can be used in window combinations or placed above doors to let light and fresh air into a room while adding style and curb appeal. Stationary transom windows share all the characteristics of venting transom windows but do not open for ventilation.

SPECIALTY WINDOWS

Specialty windows are stationary (non-opening) windows characterized by their special shapes, including curves and dramatic angles. They can make a signature statement in your home or provide a delicate lighting accent.

A-Series Frenchwood® Patio Doors

FRENCHWOOD® GLIDING PATIO DOORS

These doors have at least one door panel that glides smoothly past another door panel to save room where you need it – inside or out. Available in two-, three- and four-panel configurations.

FRENCHWOOD® HINGED INSWING PATIO DOORS

Hinged inswing patio doors open in the interior of your home, saving room for smaller exterior areas such as balconies, patios and decks. Available with one, two or three panels.

FRENCHWOOD® HINGED OUTSWING PATIO DOORS

With panels that open outward, these doors give you more usable space inside your home. Available with one or two panels.

FRENCHWOOD® TRANSOMS & SIDELIGHTS

Transoms go above a door while sidelights flank one or both sides of the door. Alone or combined, they can turn your doorway into a focal point while letting more natural light into your home's entryway.

EXTERIOR COLOR AND TRIM OPTIONS

A-Series double-hung, casement and transom windows and Frenchwood® outswing patio doors. Specified equal light grille pattern.

The Exterior of Your Home Is the Face It Presents to the World.

With Andersen® A-Series windows and doors, you have the colors and exterior trim choices you need to make not only your windows, but your entire home look the way you've always envisioned.

EXTERIOR COLORS

Select any combination of colors shown here for your exterior frame, sash and trim.

EXTERIOR TRIM THAT FITS WINDOWS, PATIO DOORS AND YOUR VISION.

Exterior trim adds a finishing touch to your windows and is often essential in achieving authentic architectural style. You can match the color of your windows or doors, or complement them with a different color. Durable A-Series exterior trim is low maintenance and never needs painting.

PAINTED INTERIOR OPTIONS

Available on pine.

White Birch Bark Primed (for paint)

Canvas Sandtone Dark Bronze Black

Additional colors to match all 11 exterior colors are also available, contact your Andersen supplier.

A-Series casement and transom windows and Frenchwood® inswing patio door with sidelight and transoms with pine interior.

*Actual wood is sapele, a non-endangered species of mahogany, grown in Africa, with color and characteristics similar to American mahoganies. Interiors are unfinished unless a stain or paint option is specified. Naturally occurring variations in grain, color and texture of wood make each window one of a kind. Printing limitations prevent exact finish replication. Please see your Andersen supplier for actual finish samples.

A-Series casement window, diamond pattern grilles with traditional folding hardware - Black finish.

Beauty in the Details

It's the Little Things that Make the Biggest Impact.

Our hardware options make sure you have the style needed to enhance or complement the overall design of your home.

We also offer security sensors to give you peace of mind and the ability to monitor the status of your Andersen® windows or patio doors.

To learn more about our VeriLock® security sensors and Wireless Open/Closed sensors, see pages 26-27 or visit andersenwindows.com/connect.

The tilt-in feature of A-Series double-hung windows allow one-hand operation for easier cleaning.

Best-in-Class Glass

• GLASS •

High-Performance Glass

Glass can affect energy efficiency more than any other part of a window or patio door — and not all glass performs the same. Some types of glass do a better job at insulating your home. Others provide greater clarity.

You can even choose glass to filter out specific kinds of light. Andersen offers one of the industry's widest arrays of glass options, enabling you to find the right choice for your climate and your home. Choose from these High-Performance glass options.

TRIPLE-PANE GLASS

Three panes of glass combine with either argon gas blend or air and Low-E coatings to provide enhanced energy performance. Add triple-pane glass to one of our windows or doors for maximum energy efficiency.

HEATLOCK® TECHNOLOGY

Our HeatLock coating can increase the energy efficiency of any A-Series window or patio door with Low-E4® or SmartSun™ glass. Applied to the room-side glass surface, it reflects heat back into the home for improved performance.

LOW-E4® SMARTSUN™ GLASS

It helps shield your home from the sun's heat, filtering out 95% of harmful UV rays while letting sunlight shine through, plus it provides all the benefits of Low-E4 glass.

LOW-E4 GLASS

Outstanding thermal performance for climates where both heating and cooling costs are a concern. It comes standard on all A-Series products and is up to 57% more energy efficient than ordinary dual-pane glass.*

LOW-E4 SUN GLASS

Outstanding thermal performance in southern climates where less solar heat gain is desired. It's tinted for maximum protection from the effects of intense sunlight while providing all the benefits of Low-E4 glass.

Additional glass options are also available. Visit andersenwindows.com or see your Andersen supplier.

Our Insect Screens Come in Many Types. Just Like Insects Do.

Optional insect screens are available for all A-Series products. Patio doors feature conventional Andersen® fiberglass insect screens. For windows, choose aluminum insect screens, or TruScene® insect screens that provide a clearer view, help bring the outdoors into your home and are less noticeable from the street.

TRUSCENE® INSECT SCREENS*

Made with a micro-fine stainless steel mesh that's one-third the diameter of conventional insect screen wire, TruScene insect screens provide 50% more clarity than conventional Andersen® insect screens. They allow more fresh air and sunlight in, while keeping out small insects.

* TruScene® insect screens are not available on patio doors. All comparisons are made to Andersen aluminum insect screens.

• INSECT SCREENS •

FRAME OPTIONS

Stone

White

Gold Dust

For casement and awning windows, aluminum insect screen frames are available in Stone, White or Gold Dust, shown at left from the interior, as well as all interior painted options – Sandtone, Canvas, Dark Bronze and Black. Insect screen frames for all other windows are installed on the exterior of the window and match the unit's exterior color.

PREFINISHED WOOD FRAME OPTIONS

Frames of TruScene® insect screens for casement, awning and transom windows are also available in six wood-veneered options and six stain colors to match the interior finish. Pine veneer frame with clear finish is shown.

WINDOW INSECT SCREEN CONFIGURATIONS

Full insect screens are available for all operating Andersen® A-Series windows. Our double-hung windows also give you the option of half insect screens that cover only the lower sash.
