

For more than 30 years, BMC has been on the forefront of innovation, continually creating solutions to make homebuilding BETTER, FASTER, SAFER and GREENER.

Guided by the BMC Operating System – our strategic play book of best practices and lean manufacturing principles – we’re on a never-ending journey of continuous improvement. Our goal? Set the industry benchmark for service and advanced manufacturing, while building a winning culture of excellence.

Rely on BMC for service you can count on. What you need, when you need it, exactly how you want it – from start to finish. It’s more than just a motto. It’s our mission.

ADVANCED MANUFACTURING

BMC ADVANCED MANUFACTURING IS

- A Complete Solution
- Whole-House Design
- READY-FRAME®
- Manufactured Components
- Millwork, Doors & Windows

MEETING INDUSTRY
CHALLENGES
WITH INNOVATION,
EFFICIENCY AND SCALE

WHOLE-HOUSE DESIGN

BMC's whole-house design ensures each component and all trades work together seamlessly.

- Home plans perfected using state-of-the-art 3D technology.
- Providing faster, more accurate, higher-quality building with less waste.
- By intelligently engineering more value into plans, projects become more efficient and affordable.

WHOLE-HOUSE DESIGN OFFERS:

Accuracy

Consistency

3D Technology

Fast, Efficient Building

Value Engineering

300+

**NATIONAL
DESIGN PROFESSIONALS**

**ERRORS CORRECTED
BEFORE CONSTRUCTION**

READY-FRAME®

Computerized precut framing lumber packages arrive to the jobsite smart-bundled and labeled to increase construction speed, decrease labor and nearly eliminate waste.

36

READY-FRAME® FACILITIES AND 55 SAWS

WALL PANEL FACILITIES

16

READY-FRAME® DELIVERS:

Less Labor

Quicker, Easier Builds

Increased Efficiency

Fewer Errors

Reduced Waste

- Each piece, precision cut to 1/16" accuracy by proprietary saws.
- READY-FRAME® jobsites are cleaner, more efficient and have less waste.
- Industry-leading innovation for over two decades, in select markets.

CASE STUDY

Two jobsites with identical floor plans were framed simultaneously in Austin, Texas. One site was constructed using traditional framing, the other with READY-FRAME®.

TWO JOB SITES. SAME FLOOR PLAN.

2,237 SQ FT.

TRADITIONAL FRAMING

Finished in 11 Days

33%
LESS LABOR

READY-FRAME® SALES IN MILLIONS:

MANUFACTURED COMPONENTS

Precision built to design specification, then delivered to the jobsite exactly when needed.

MANUFACTURED COMPONENTS PROVIDE:

Reduced Framing Time

Lower Material Costs

Less Jobsite Waste

Structural Superiority

Flexibility to Meet Demand

- READY-FRAME®, wall panels, roof and floor trusses
- PET Engineered Floor Systems
- Regional manufacturing to meet local market needs

AUTOMATED TRUSS PLANTS

Operational: Cumming, Georgia; Austin, Texas

Coming Soon: Salt Lake City, Utah; Seattle, Washington

- State-of-the-art manufacturing operation brought online in 2018.
- Innovative, customer-focused solutions that address industry challenges.

AUTOMATED FACILITY ENABLES:

Shorter Setup Time

Reduced Crew Sizes

Higher Production

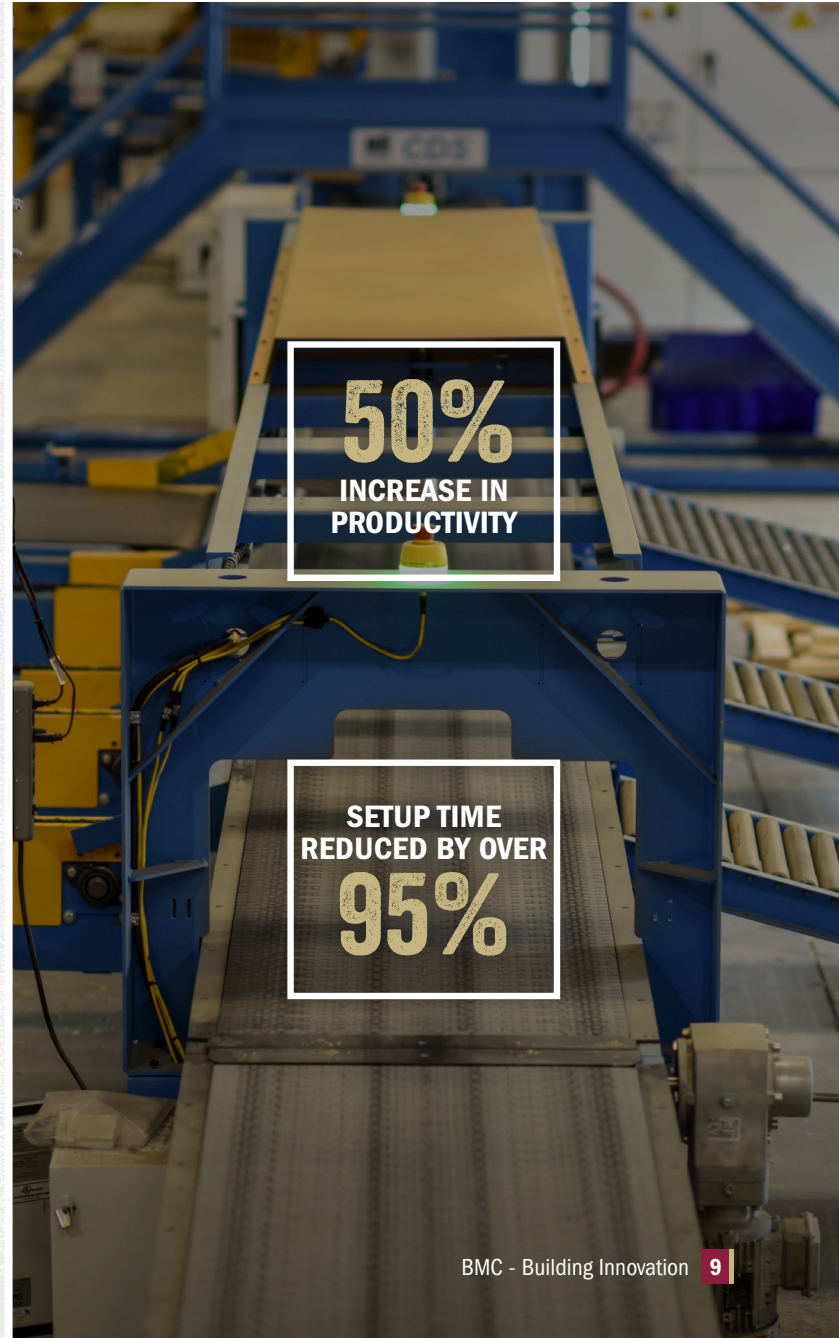

Product Consistency

More Reliable Lead Times

Increased Profitability

MILLWORK, WINDOWS & DOORS

Ready-made building products installed with little to no modification.

Craftsmanship

Replication & Restoration

Worldwide Delivery

- BMC is one of the oldest and largest millwork suppliers in the U.S.
- We can produce nearly anything and ship it anywhere, from line-produced pre-hung doors to one-of-a-kind masterpieces.
- Technology-enabled estimating increases accuracy and expedites quote delivery time.

ADVANCED MANUFACTURING

BMC advanced manufacturing addresses builder challenges.

Manufacturing is at the heart of what we do, and it differentiates BMC in the eyes of our customers through proven value.

OUR PROVEN APPROACH:

Progressive Technology

Advanced Manufacturing

Optimized Building Services

National Footprint

Culture of Excellence

**REDUCES
JOBSITE LABOR**

**DECREASES
CYCLE TIME**

**LOWERS OVERALL
CONSTRUCTION
COSTS**

OUR INDUSTRY IS FACING ITS OWN INDUSTRIAL REVOLUTION
