# QUICKKIT™

EXTERIOR DOOR INSTALLATION KIT

For a job done right, you need the right tools and materials, especially when it comes to installing exterior doors. Most materials required for the project are not included with the door, so installers spend additional time and money obtaining the necessary supplies.

## DAP® QUICK KIT™

### Exterior Door Installation Kit

The DAP® Quick Kit™ contains all the necessary materials for installing one standard sized exterior entry door, ensuring your customers have the right products for proper installation while helping you capture additional sales of these critical components.

Each kit includes components that meet door manufacturer specifications: DAP® Dynaflex® 800 Sealant, DAP® Draftstop® 812 Window and Door Foam, DAP® LT Poly Flash 711 Flashing Tape, Jamsill Guard® Sill Pan, aluminum head flash (drip cap), composite shims and rustproof screws.

AVAILABLE FOR SINGLE, DOUBLE

# SAVE TIME - SAVE MONEY

Have all the right installation materials ship with the door directly from the factory.

## DAP® QUICK KIT™ Pre-Hung Exterior Door Installation Kit Contains

### DAP® Dynaflex® 800 Sealant

Meets AAMA 800 Specification

### DAP® Draftstop® 812 Window and Door Foam

Tested in accordance with AAMA 812 Specification

### DAP® LT Poly Flash 711

Meets AAMA 711 Specification

### Jamsill Guard® Sill Pan

Meets requirements of ASTM 2112 Specification

### Aluminum Head Flash (drip cap)

Meets requirements of ASTM 2112 Specification

### Composite Shims

Pre-scored design for easy, consistent snap

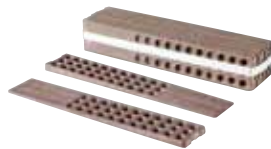

### Screws

Rustproof
