FORTIFY THE FUTURE.

Tired of run-of-the mill decking and boring boards?

Build a better tomorrow with bold, beautiful, built-to-last solutions from Fortress Building Products. Crafted from sustainable bamboo and recycled plastics, our decking boards are designed for a greener world.

Create your ideal Outdurable Living® space with revolutionary products that are resilient, refined and really easy to care for. We help you make the great outdoors even greater by continually pushing the boundaries. It's smarter innovation. It's the Fortress® way.

**DIFFERENT
IS BEAUTIFUL**

Fortress® decking is causing a revolution by pioneering an evolution. We took a fresh look at the decking industry and then engineered a total solution of beautiful, innovative profiles unlike any others.

Our unique manufacturing process creates decking that is more dense, more true and more scratch- and slip-resistant. This attention to detail also allows us to create shapes, styles and aesthetics that the competition can't match.

Fortress decking delivers two distinct lines that will change the way you bring your vision to life. This complete range of styles and prices gives you the freedom to design a deck with unequaled looks and unrivaled durability. By thinking differently, we all build better.

THE WORLD NEEDS REBELS

Image: Apex® decking shown in Arctic Birch.

To change the world, first you have to conquer it. Fortress® decking exists because no other product could perform in the harsh climate of South Africa, where it all began. After defending against dramatic temperature swings and enduring some of the world's toughest ultraviolet conditions, our decking grew to become the leading product in Europe and the fastest growing deck brand globally. Our capped decking materials have gone toe-to-toe with every climate imaginable and have never been defeated.

Now advancing throughout North America, Fortress decking is already proven to help your deck look and perform out of this world.

APEX[®] DECKING

FORTRESS[®] APEX[®]

CAPPED BAMBOO-PVC COMPOSITE DECKING

THE PEAK OF BEAUTY AND PERFORMANCE

Fortress[®] decking imagined a radical idea. Could we build a PVC decking series that defies expectations? As a result, our Apex[®] PVC composite decking reaches new heights in value, quality and aesthetics. Fortress Apex[®] PVC composite decking uses a proprietary tri-extrusion process that delivers the beautiful look of tropical hardwoods. In fact, it's been called, "the best board I've ever seen" by numerous customers.

The foam core reinforced with bamboo is 45% lighter than composite decking making it easy to work with. It expands and contracts about 25% less than other PVC deck boards, providing more consistent install, gaps and looks. Each board is encapsulated in an acrylic polymer that delivers outstanding UV performance, so your deck won't fade like other PVC products; and it provides the highest non-slip rating. So rise up, and reach the apex of decking.

INFINITY® I-SERIES

CAPPED BAMBOO-PLASTIC COMPOSITE DECKING

CUT COST, NOT QUALITY

Fortress® set out to prove that cost-effective decking could still deliver the strength, usability and beauty of its premium cousins. Well, we did that and more.

Our new Infinity® I-Series decking is 40% lighter, while keeping the same stiffness and mechanical properties. This revolutionary design uses the historically proven I-beam shape, which is uniquely capable of handling heavy loads.

ON-THE-WALL DECKING. OFF-THE-WALL AESTHETICS.

Want to take your outdoor space to the next level? Fortress Building Products is excited to bring you the evolution of facades with our revolutionary cladding products. Our cladding family is comprised of our Infinity® composite square boards and Apex® PVC composite square and grooved boards, which have both been approved for use as cladding for rainscreen application. Using our deck boards as part of a rainscreen assembly means you can count on the superior wood emulation, long-term aesthetic performance and strong warranties you've come to expect from us.

OUTDURABLE LIVING®

Fortress® delivers the total solution for the backyard and beyond. In fact, we offer such a broad array of exceptional products, we had to create an entirely new category – Outdurable Living®. Decking, railing, fencing, framing, lighting, fasteners, cladding and pergolas are just the beginning. Our extensive family of products all work in harmony or individually to create beautiful, long-lasting spaces.

HULK FASTENERS™ – WHERE TECH MEETS TOUGH.

A different kind of deck needs a different kind of fastener. HULK products were developed using state-of-the-art technology and manufacturing methods. They work in perfect synergy with our deck boards and many other composites. HULK products are extremely durable and corrosion resistant for long term applications. HULK screws use an advanced bit lock system, which maximizes torque transfer for easier installation. There are options for steel or wood framing.
