Wood Windows and Patio Doors
About JELD-WEN

DEDICATION FROM DAY ONE

Since 1960, when JELD-WEN began with one millwork plant, we’ve been dedicated to crafting windows and patio doors that enhance the beauty and functionality of your home. Today we continue that tradition with products that are durable and worry-free. It’s the result of innovation as a driving force in all that we do.

It begins in the forests where we harvest our premium lumber. In addition to responsible reforestation practices, we reuse and recycle as much of our raw resources as possible. Innovation is also at the heart of our design and manufacturing process. With JELD-WEN, you can expect products that are more than just beautiful on the outside. The inner workings of our windows and doors are engineered to function for years to come.

Product Comparison Charts 40
AuraLast® pine is a patented wood product that provides protection against wood rot, water damage and termites. This water-based process fortifies wood all the way to the core, providing an exclusive level of protection you’ll only find through JELD-WEN.
EASY ON THE ENVIRONMENT
Water-based process releases up to 96 percent fewer volatile organic compounds (VOCs) during the manufacturing process than traditional solvent-based methods.

WET WEATHER PROTECTION
Whatever the climate, AuraLast® pine protects against water damage and rot like no other. Whether it’s humidity, storms or dampness, AuraLast® pine stands up to the rigors of wet weather.

TERMITE PROTECTION
Termites can be devastating to windows and doors, but not to those built with AuraLast® pine. It safely and effectively repels termites, preserving the beauty of your investment.
Replace, Remodel or Build
 PRODUCTS FOR EVERY POSSIBILITY

Whether you’re building, remodeling or replacing, JELD-WEN has windows and doors for every project.

For new construction, we provide window and patio door options to transform your house into a home. Efficiency, style and performance are built into everything we make, including custom products and sizes.

Have a vision for your remodel? We can help you achieve it. Open up a room with natural light. Don’t worry about matching the existing color of your home; we have products that match, coordinate or complement.

JELD-WEN replacement products offer style and functionality. Our installation kits make quick work of the project.
W-2500™ Standard Sash

- Great style and budget friendly
- Long-lasting and energy efficient
- Constructed with AuraLast® pine
- Ideal for new construction, remodeling or replacement
- Backed by a 20-Year Limited Warranty*

W-2500™ Traditional Sash

- Wider sash and stile profile
- Customizable in 1/8” increments
- Constructed with AuraLast® pine
- Ideal for new construction, remodeling or replacement
- Backed by a 20-Year Limited Warranty*

W-4500™

- Mid-range line with styles to accommodate any architectural style
- More wood, color, finish and glass options
- Built with thicker, more durable stiles and rails
- Constructed with AuraLast® pine
- 21 exterior clad colors
- Backed by a 20-Year Limited Warranty*

*For warranty details, visit jeld-wen.com, scroll over Product Support and select Warranty Information.
W-2500™ Windows

Budget friendly, efficient and stylish, the W-2500™ delivers.
This entry level line of wood windows will look great for years.
With proven performance and multiple color and hardware choices, the W-2500™ offers you so many possibilities.
Casement

- Great option in many settings including kitchens and bathrooms
- Hinged on either the left or right side and opens wide for maximum ventilation
- 1-1/4" sash rails provide maximum view
- Wider sash and stile profile available

Minimum: 20" x 24"
Maximum: 36" x 72"

Awning

- Hinged at the top to open out from the bottom in an upward swing
- Provides a breeze while keeping other elements like rain at bay
- Narrow stiles and rails
- Wider sash and stile profile available

Minimum: 20" x 17"
Maximum: 48" x 36"
Double-Hung

- Suited to many architectural styles
- Features an upper and lower sash that slide vertically past each other in a single frame
- Both sash tilt for easy cleaning
- Wider sash and stile profile available

Minimum: 19-1/4” x 35-1/4”
Maximum Width: 41-3/8” x 64”
Maximum Height: 37-3/8” x 76”

Fixed, Radius and Geometric

- Create intriguing window arrangements with other window types
- Ideal for capturing a scenic view
- Direct-set options available
- Radius interior casing
- Wider sash and stile profile available

Minimum and maximum sizing depends on the shape and configuration of window selected.
W-4500™ Windows

The W-4500™ can help you express your style with multiple colors and options. This versatile line is easy to operate and made to last.
Casement

- Clean, modern design
- Great way to accent different rooms
- Maximum ventilation
- Extruded cladding
- Multiple lock points

Minimum:
18" x 18"

Maximum Width:
36" x 72"

Maximum Height:
24" x 84"

Awning

- Versatile look that complements any style
- Looks great alone or grouped with other window types
- Extruded cladding
- Dual locking arms

Minimum:
18" x 18"

Maximum Width:
60" x 36"

Maximum Height:
48" x 48"
Double-Hung

- Traditional style
- Multiple color, hardware and divided lite options available
- Extruded cladding
- Easy-clean sash with tilt latch

Minimum: 21-3/8” x 32”
Maximum: 43-3/8” x 92”

Double-Hung Replacement

- Easy upgrade from old, single-pane sash windows
- Comes with our sash replacement kit with insulated glass
- Sash pack or 3-1/4” pocket frame
- Can be installed without replacing siding and moldings

Available on the W-2500™ and W-4500™ product lines.
Horizontal Sliding

• Clean, streamlined look
• Extruded cladding
• Both sashes slide

Minimum:
29-5/16” x 23-9/16”

Maximum:
71-5/16” x 59-9/16”

Fixed and Geometric

• Showcases views
• Adds style to any room
• Direct set glass in frame for maximum glass size and viewing area

Minimum and maximum sizing depends on the shape and configuration of window selected.
Radius Top Units

- A simple arch adds something extra

All-Wood Exterior Windows

- Real wood inside and out
- Can be painted or stained to match any color palette
- Great for historical applications
- Natural or primed exterior
- Constructed with AuraLast® pine (Limited Lifetime Warranty)
- Available in casement, awning, double-hung, horizontal sliding, fixed, radius top units

Available on W-2500™ and W-4500™ product lines.
Patio Doors

Our patio doors can fit every budget and style. Enjoy a seamless transition from indoors to outdoors with JELD-WEN® patio doors.
W-2500™
Sliding Patio Doors

• Fiberglass sill and large diameter rollers for easy rolling
• Top-hanging screen available
• Tilt-and-raise blinds between the glass (BBG) available

Minimum:
59-1/4" x 79-1/2"

Maximum:
95-1/4" x 95-1/2"

Values above are frame sizes and are based on 2-panel configurations.

W-4500™
Sliding Patio Doors

• Narrow or wide stiles
• Fiberglass sill and large diameter rollers for easy rolling
• Top-hanging screen available
• Tilt-and-raise blinds between the glass (BBG) available

Minimum:

87-1/4" x 119-1/2"

W-2500™
Swinging Patio Doors
• Clean, simple lines
• Available in center hinge or French

Minimum:
47-1/4" x 79-1/2"

Maximum:
87-1/4" x 98-1/2"
W-4500™
Folding Patio Doors

- Integrate inside with outside
- Multiple 2-, 3- and 4-panel designs available
- Hidden bottom roller hardware
- Tilt-and-raise blinds between the glass (BBG) available

Minimum: 62-1/2" x 80-3/8"
Maximum: 74-1/2" x 96-3/8"
Find Your Window or Patio Door in Six Steps

JELD-WEN offers many style, color, size and option possibilities. There are hundreds of ways to configure your windows and patio doors. Follow these six steps to create the windows or doors of your dreams.

1. WHAT TYPE OF WINDOW OR PATIO DOOR?
   Start with the basic shape and operation of the window or patio door.
   Pages 26-27

2. CHOOSE YOUR GLASS
   Clear, tinted, textured and more available.
   Pages 28-29

3. EXTERIOR AND INTERIOR OPTIONS
   Choose colors, wood species and trim.
   Pages 30-32
4. **CHOOSE YOUR HARDWARE**
Add an accent and security with hardware.

Pages 33-35

5. **DIVIDED LITES & GRILLES**
Personalize your window or patio door with these extras.

Page 36

6. **SCREEN TECHNOLOGY**
Design and ventilation options, beautiful views and no bugs.

Page 38
What Type of Window or Patio Door?

**CASEMENT**
- Hinged on either the left or right
- Opens wide for maximum ventilation
- Frequently used in kitchens and bathrooms

**AWNINGS**
- Hinged at the top to open outward
- Often placed above doors
- Great accent windows

**DOUBLE-HUNG**
- Two operating sashes, which slide vertically past each other

**FIXED, RADIUS AND GEOMETRIC**
- Non-operating windows create a focal point in any room
- Work well above doors, fireplaces and more
- Available in many shapes and sizes
**HORIZONTAL SLIDING**

- Often placed over kitchen sinks
- Option available that allows both sashes to slide

---

**RADIUS TOP**

- An arched top adds visual appeal to the otherwise squared-off window
- The top sash is fixed in place while the bottom slides vertically

---

**BAYS AND BOWS**

- Creates more space
- Bay windows extend a room outward
- Bow windows create a gentle angle

Available in W-4500™

---

**SLIDING PATIO DOORS**

- Horizontal slide for outdoor access
- Multiple options for customization

---

**SWINGING PATIO DOORS**

- Hinged at the side with inswing and outswing
- Single or French doors
- Many hardware, color and finish options

---

**FOLDING OR MULTI-SLIDE PATIO DOORS**

- Multiple panel operation creates a wider opening

ENERGY SAVING GLASS OPTIONS

LOW-E INSULATING GLASS

Our standard high-performance Low-E insulating glass enhances energy conservation by helping homes stay cooler in the summer and warmer in the winter. Low-E provides more protection against solar heat gain, reduces condensation and helps limit fading of interior furnishings. Multiple grades of Low-E glass are available depending on region. Please see a team member to learn more.

ENERGY STAR®

Many JELD-WEN® windows and patio doors are ENERGY STAR® certified, which means they exceed the minimum energy efficiency criteria for the climate region in which you live. JELD-WEN has been a proud ENERGY STAR® partner for over a decade.

DIRT-RESISTANT GLASS

With this glass option, you gain natural cleaning convenience. By harnessing the sun’s UV rays (even when the sky is cloudy) to loosen dirt from the glass, rainwater can easily rinse away grime. No manual activation is required.

DUAL-PANE GLASS

Energy efficiency is built into every JELD-WEN® window and patio door, starting with the dual-pane option. It’s a tremendous value in insulating glass with argon gas between panes as well as higher grade Low-E glass with triple layers of Low-E coating.

PROTECTIVE FILM

Protective film is factory applied to both the interior and exterior surfaces of the glass. This means the glass surfaces will be reliably protected from debris and scratches that can occur during shipping and handling or at a construction site. So you won’t need to spend extra time cleaning your new windows. What’s more, it’s easy to remove.

ENERGY STAR® is a trademark of the US Environmental Protection Agency.

Divided Lites & Grilles

SIMULATED DIVIDED LITES (SDL)
- Grilles are adhered to the interior glass
- Exterior grille options include aluminum for clad-wood or wood for primed wood
- Optional light brown or silver shadow bars are placed between the two panes of insulating glass to complete the effect
- Interior and exterior SDLs are available in decorative beaded or subtle putty profiles (shown to the right)

GRILLES BETWEEN THE GLASS (GBG)
- Select 5/8" flat or 23/32" or 1" contour metal grilles in many of our clad colors
- Low maintenance option

FULL-SURROUND (FS) WOOD GRILLES
- Easily removed for cleaning
- Choose from 7/8", 1-1/8" or 1-3/8" grilles
- Positioned on the interior glass surface

Some options are limited to a particular line. Actual colors may vary from the samples displayed.
Screen Technology

SCREEN OPTIONS
Let the natural light flood in while keeping insects at bay. With a fine, black fiberglass mesh and light gloss finish, BetterVue® insect screens are now standard for awning, casement, double-hung and horizontal sliding windows. UltraVue®, fiberglass and aluminum mesh screens are available in charcoal or silver finishes.

PHANTOM SCREENS® TECHNOLOGY
These retractable screens provide wide-open views when you want them or breezy protection from the outdoors when you need it. They’re durable and easy to operate. Phantom Screens are available on awning, casement and double-hung windows. They are not available on the W-2500™ Series. Screens for double-hung windows also have a removable track that allows the sash to tilt in for easy cleaning.

PATIO DOOR SCREENS
As on our windows, BetterVue® screens are standard on patio doors. However, you can also choose from bottom-rolling extruded (both regular and heavy duty) or a top-hanging screen.

ALUMINUM FRAME SCREENS
Choose from any clad colors that let your screen frames stand out or blend in.

Insect screens are intended to allow air and light in, while keeping insects out. They are not intended to stop children from falling through an open door or window. For safety screens and other security devices, contact your local building supply retailer.

BetterVue® and UltraVue® are trademarks of Phifer Inc. PST Phantom Screens® Technology is a trademark of Phantom Screens.
