ColorPlus® Technology finishes are baked on at the factory for a long-lasting consistent finish.

Complete Exterior[™] by James Hardie

Hardie® siding, trim, and soffit products are designed to work together, all reinforced by Hardie® fiber cement for an exterior that helps stand up to fire, moisture, pests, and the harshest weather conditions. Don't settle for partial peace of mind, protect every corner of your investment with a Complete Exterior™ by James Hardie.

ONE MATERIAL

Only Hardie® fiber cement products are Engineered for Climate®, helping to resist damage from fire, water, and insects that delivers optimal performance for your home's specific region.

ONE MANUFACTURER

Get added peace of mind with siding, trim, and soffit all on the same 30-year non-prorated warranty. One manufacturer to contact makes your life easier.

ONE MAINTENANCE CYCLE

Rest easy knowing that all your siding, trim and soffit is the same Hardie® fiber cement material. With all the products sharing the same lifespan, you can spend less time and money on upkeep and more time enjoying your home.

^{**} Hardie® fiber cement products are noncombustible and/or have a Class A fire rating when tested in accordance with ASTM E84. Fiber cement fire resistance does not extend to applied paints or coatings, which may be damaged or char when exposed to flames. The use of noncombustible siding, combined with other fire mitigation measures, can help harden a home against external fire.

Tougher than the elements.

Help prepare your home for the unpredictable with noncombustible siding that won't burn or ignite when exposed to a direct flame.

- Verified noncombustible per ASTM E136
- Will not contribute fuel to a fire
- Class A fire rated per ASTM E84, with a flame spread index / smoke developed index of less than 0/5
- Verified in wall assemblies with 1-hour and 2-hour fire-ratings per ASTM E119

Water Resistant

From rain to ice to snow, precipitation patterns can lead to warping, swelling and cracking in woodbased siding. Take shelter from the storm knowing that your siding is built to resist water damage.

- FEMA Class 5 flood damage resistance (highest rating)
- Rated for use in High Velocity Hurricane zones by Miami-Dade County, Florida*

*Applies to most products by James Hardie. For full list go to: www.jameshardie.com/miami-dade-NOA

Creatures can wreak havoc on wood-based siding. It can be pecked by birds or be damaged by woodpeckers, termites and other pests. Hardie® fiber cement holds no appeal for these critters, saving you the maintenance hassle.

Building a Better Future for All™.

Building a Culture of Sustainability

Throughout our company and across our value chain, sustainability is foundational at James Hardie. Our sustainability goals are integrated into our business operations, governance structure and company culture. We have ambitious targets that align with our purpose of **Building a Better Future for All™**, the issues that matter most to our stakeholders and our overall corporate objectives. Our progress is possible through collaboration and innovation. From our frontline employees to the builders who use our products, each person plays a role in putting our sustainability initiatives into action.

Scan code to find out more about our sustainability efforts.

ADDING VALUE TO OUR COMMUNITIES

We recognize our ability to impact the communities in which we live and work. While maintaining a global mindset, we put great care into how our business affects local communities. We contribute by sourcing, employing, delivering and giving locally.

CREATING AN IMPACT

We invest in the local community and aim to locate the plants close to suppliers, customers and potential new employees, as well as sustainable transportation opportunities.

Beauty begins with a finish that lasts.

PRIMER

A quality primer is the first step to ensuring that the paint color you select expresses your home's true beauty now – and for years to come. Our distinctive primer is climate tested and engineered to enhance the performance of paint on Hardie® fiber cement exterior solutions. It helps to provide consistent, long-lasting paint adhesion, even in the most demanding conditions.

COLORPLUS® TECHNOLOGY

ColorPlus® Technology finishes are fully cured on our boards in a controlled factory environment and arrive at your home ready for installation year-round. With prefinished color products, you'll have peace of mind, knowing you'll have a more consistent color and finish that doesn't depend on good weather.

With a variety of color options available to help bring your vision to life, ColorPlus® Technology finishes help keep your home looking beautiful longer.

- Exceptional finish adhesion
- Superior color retention
- Superior UV resistance

Find the perfect finish for your home.
