# TimberHue™ Collection

COMING  
SOON

The TimberHue™ Collection by James Hardie honors wood’s legacy with a rich, authentic grain and two-tone finish that provides the warmth of a stained wood look, matched with the durability and low maintenance of Hardie® fiber cement products and ColorPlus® Technology finishes.

The TimberHue™ Collection can be mixed with other Hardie® products for a modern, mixed-material aesthetic or used as an accent to highlight architectural features. Its curated palette—ranging from warm chestnuts to cool greys—reflects today’s design trends while maintaining timeless appeal. Each of the eight colors was hand-selected by design experts to create a warm, welcoming exterior that feels both natural and elevated.

Low profile starter strip.

# Help protect every corner of your home with a **Complete Exterior™** by James Hardie

Hardie® Shingle

Hardie® Panel &  
Hardie® Trim Batten

Hardie® Plank

Hardie® Trim Boards

Hardie® Soffit

With a **Complete Exterior™** by James Hardie, you can bring your dream home to life without having to choose between protection and long-lasting beauty. Using products from a single, trusted manufacturer that offers exceptional warranties, you'll have complete peace of mind, so you can sit back, relax and enjoy your home's exterior.

ONE MATERIAL

Only Hardie® fiber cement products are **Engineered for Climate®**, resisting damage from fire, water, and insects and delivering optimal performance for your home's specific region.

ONE SOURCE

Hardie® is the #1 brand of siding in North America,\*\* and our products are proudly made in the USA at one of our 11 manufacturing sites—meaning you can count on your product when you need it.

ONE WARRANTY

Rest easy knowing that all your siding, trim and soffit is backed with a 30-year non-prorated warranty from a single trusted manufacturer. One manufacturer to contact makes your life easier, giving you more time to enjoy your home.

\*Hardie® fiber cement products are noncombustible and/or have a Class A fire rating when tested in accordance with ASTM E84. Fiber cement fire resistance does not extend to applied paints or coatings, which may be damaged or char when exposed to flames. The use of noncombustible siding, combined with other fire mitigation measures, may help harden a home against external fire.  
\*\* Based on Freedonia Group, Global Siding (Cladding) Report (2025).

Hardie® Plank Midnight Black  
Hardie® Shingle Arctic White

Durability and protection you can trust.

Hardie® Plank

Hardie® Shingle Straight Edge  
Arctic White

# Proudly stands up to the elements.

## Fire

Hardie® siding is made of noncombustible\* fiber cement that won't burn or ignite when exposed to a direct flame.

Listed for use in wildfire-prone Wilderness Urban Interface (WUI) zones in the western US.

- Verified noncombustible per ASTM E136
- Will not contribute fuel to a fire
- Class A fire rated per ASTM E84, with a flame spread index / smoke developed index of less than 0/5
- Verified in wall assemblies with 1-hour and 2-hour fire-ratings per ASTM E119

### Cal-Fire Compliant

\*Hardie® siding complies with ASTM E136 as a noncombustible material. Fiber cement fire resistance does not extend to applied paints or coatings, which may be damaged or char when exposed to flames.

Scan to see the durability of Hardie® products.

## Water

Hardie® products are specifically engineered to resist damage from moisture and rot, and will hold their own, come rain, sleet, or snow.

- FEMA Class 5 flood damage resistance (highest rating)
- Rated for use in High Velocity Hurricane zones by Miami-Dade County, Florida\*

\*Applies to most products by James Hardie. For full list go to: [www.jameshardie.com/miami-dade-NOA](http://www.jameshardie.com/miami-dade-NOA)

## Pests

Creatures can wreak havoc on wood-based siding. It can be damaged by woodpeckers, termites and other pests. Hardie® fiber cement holds little appeal for these critters, saving you the maintenance hassle.

## Time

ColorPlus® Technology finishes provide a durable finish that helps resist fading and discoloration that outperforms field applied paint, so your exterior can keep its good looks longer.

# Hardie™ Zone System

Exterior solutions inspired by nature. And designed to protect your home from it.

Only Hardie® fiber cement exterior products are **Engineered for Climate®**, designed specifically with your climate zone in mind for optimal performance. In the northern USA and Canada, HZ5® products resist shrinking, swelling and cracking even after years of wet or freezing conditions. HZ10® products help protect homes from hot, humid conditions, blistering sun and more.

With Hardie® siding, trim and soffit, your home's exterior will be as tough as it is beautiful.

Quality materials that you can be proud of.

## Unique Formulation Hardie™ Zone Substrate

Not all fiber cement is the same. Hardie™ Zone formulations require raw materials that meet our stringent quality standards. Our unique formulation, combined with innovative product design and manufacturing processes, creates a substrate that is specifically engineered to resist moisture, cracking, shrinking and swelling, for increased durability and workability.

### Proprietary enhancements create durable Hardie® siding

#### PERFECT BALANCE OF STRENGTH AND WORKABILITY

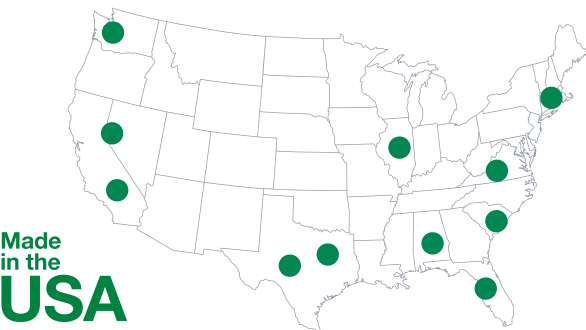

Our unique balance of high-quality Portland cement, sand and cellulose fiber delivers the best combination of strength and workability.

#### ENHANCED MOISTURE RESISTANCE FOR UNMATCHED DURABILITY

Patented and proprietary additives are chemically bonded within the substrate matrix to provide durable moisture resistance.

#### INCREASED DIMENSIONAL STABILITY

Our siding is engineered at the microscopic level to create a fiber cement composite with superior dimensional stability that resist shrinking and splitting.

● James Hardie Manufacturing Plant

11 manufacturing facilities in the United States which source at least 81% of their raw materials locally

### Unmatched investment in manufacturing scale and production innovation

- Largest manufacturer of fiber cement in North America
- Over 7x the North American manufacturing capacity of our nearest fiber cement competitors
- More than 100 process and product quality checks
- Over 85 scientists and engineers in North America's research & development providing dedicated resources for continuous innovation in manufacturing and product development
- More U.S. fiber cement patents than any competitor

\*As of March 2024

# Building a Better Future for All™

At James Hardie, we pride ourselves on providing products that help craft more resilient, durable homes and buildings. Our commitment starts with our people, who are putting sustainability into action. Their relentless pursuit of innovation is helping to develop technology that lessens the impact of our products, reduces waste from our operations and recycles water used in our plants. At the same time, our people work hard to strengthen our supply chain, promote safety and contribute to our communities. From our front-line employees, to our customers, to the homeowners who enjoy our beautiful and durable products, sustainability and resilience are key components to fulfilling our purpose of **Building a Better Future for All™**.

## Our foundation for Builing a bold and bright future

- PURPOSE**  
Building a Better Future for All™.
- VISION**  
To inspire how communities design, build and grow today and tomorrow.
- MISSION**  
Be the most respected and desired building materials brand in the world.

Scan code to find out more about our sustainability efforts.

Scan for Environmental Product Declaration of Hardie® products.

## Supporting communities worldwide

We are developing resilient building solutions that do right by our shared planet as well as support communities where our products are used and where our team of more than 5,800 global employees live and work. From our employees to our senior leaders, everyone is empowered to drive change and impact in their communities. Our culture emphasizes thinking globally while acting locally.

## Making an impact

<b>CONTRIBUTED</b> — <b>\$1.65B</b> To communities in which we operate	<b>HIRED</b> — <b>93%</b> From the local communities in which we operate
<b>SOURCED</b> — <b>81%</b> Of raw materials locally	<b>DELIVERED</b> — <b>65%</b> Of manufactured products locally

\*Above statistics are the James Hardie impact from fiscal year 2025.

## Advancing our sustainability goals

-  **REDUCING SCOPE 1+2 EMISSION**  
Reduce absolute Scope 1+2 GHG emissions by 42% by 2030 from 2021 baseline and work towards net zero by 2050
-  **MINIMIZING WASTE**  
Zero manufacturing waste to landfill by 2035
-  **RECYCLING WATER**  
Recycle an additional 20M cubic feet of water per year by 2030, compared to 2019

## Beauty that's designed to last.

### COLORPLUS® TECHNOLOGY

ColorPlus® Technology finishes are fully cured on our boards in a controlled factory environment and arrive at your home ready for installation year-round. With prefinished color products, you'll have peace of mind, knowing you'll have a more consistent color and finish that doesn't depend on good weather.

With a variety of design options available, whether different colors or our new two-tone finishes, ColorPlus® Technology finishes help you bring your vision to life and keep your home looking beautiful longer.

### PRIMER

A quality primer is the first step to ensuring that the paint color you select expresses your home's true beauty now – and for years to come. Our distinctive primer is climate tested and engineered to enhance the performance of paint on Hardie® fiber cement exterior solutions. It helps to provide consistent, long-lasting paint adhesion, even in the most demanding conditions.

## Finishing Technology

Our advanced ColorPlus® Technology finishes deliver the ultimate in aesthetics and performance. Our products aren't simply painted at the factory. Our proprietary coatings are baked onto the board, creating a vibrant, consistent finish that performs better, lasts longer and looks brighter on your home.

### EXCEPTIONAL FINISH ADHESION

Our proprietary coatings are engineered for exceptional adhesion to our substrate and applied to the surface, edges and features for durable performance.

### SUPERIOR COLOR RETENTION

The finish is cured onto boards for a stronger bond, which allows for exceptional resistance to cracking, peeling and chipping.

### SUPERIOR UV RESISTANCE

ColorPlus® Technology finishes retain vibrancy longer compared to vinyl siding and the typical field paints used on other siding products.

### NEW TWO-TONE TECHNOLOGY

Two-tone finish provides the warmth of a natural wood look, matched with the trusted durability of Hardie® fiber cement products with ColorPlus® Technology finishes.

# Unparalleled beauty with unparalleled performance.

## See the James Hardie difference

James Hardie invented modern fiber cement. Over 10 million homes\* later, we continue to set the standard in premium, high-performance exterior cladding. Our products deliver uncompromising durability and finish quality for a beautiful, low maintenance exterior.

Our unrivaled investment in R&D and constant innovations in product design, manufacturing and distribution allow us to remain steps ahead of the competition. With the support of our employees and partners, and with our exceptional warranties, we're committed to helping protect your home and investment every step of the way.

\* Estimate based on James Hardie North American sales and average housing unit size.

# Industry-leading warranty for peace of mind

Protect your home with North America's #1 Brand of Fiber Cement siding, soffit and trim, backed by exceptional limited warranties. Unlike other companies, we don't prorate our James Hardie substrate warranty coverage. All Hardie® fiber cement products come with a transferable 30-year, non-prorated limited substrate warranty, meaning we stand 100% behind Hardie® fiber cement siding, trim and soffit products for 30 years.

ColorPlus® Technology finishes come with a 15-year limited warranty.

### 30-Year, Non-Prorated Siding, Trim and Soffit Substrate Warranty Coverage by James Hardie

\* Based on Freedonia Group, Global Siding (Cladding) Report (2025).

# Make your home stand up and stand out.

## Increase your home's re-sale value\*

Re-siding with fiber cement siding is one of the top ways to increase your home's re-sale value.

# Endorsements — a reputation built on trust

For decades, our fiber cement products have been used to create better places to live. That proven track record has earned us the loyalty of millions of homeowners and the endorsements of trusted authorities across the building industry.

FOR THE PROS

# Hardie™ Moisture Management Products

Protection that performs at every layer.

No exterior cladding can prevent 100% of water intrusion. Your home should have an additional line of defense. Hardie™ Moisture Management products provide a superior balance of water resistance and breathability, helping to keep the area within the wall drier. This helps prevent moisture accumulation that may lead to mold and mildew growth.

INSTALLATION ADVANTAGES OF HARDIE™ WEATHER BARRIER

- Thicker, more durable material for long-lasting protection from water infiltration
- Superior tear resistance for easier, quicker installation
- Can be installed with staples in place of cap nails for cost savings
- Provides a higher level of performance, no matter what type of cladding you specify

Hardie™ Weather Barrier

Thickness	11 mil.

## Installation Done Right

INSTALLATION ACCESSORIES

Hardie™ Blade Saw Blades

Manufactured by Diablo, the Hardie™ Blade saw blade is designed specifically to cut fiber cement products and is the only saw blade James Hardie recommends. The blade creates clean, precise cuts while helping to reduce the amount of airborne dust produced.

PacTool® Gecko Gauge

The PacTool® Gecko Gauge is designed to improve the installation experience, allowing one person to hang Hardie® lap siding during installation. The manufacturer claims the Gecko Gauge can improve the speed of solo installation by up to 30%.

## Finishing Touches

COLORPLUS® TECHNOLOGY ACCESSORIES

Touch-Up Kits for ColorPlus® Technology finishes

Specially formulated to match ColorPlus® Technology finishes, our touch-up kits offer resistance to aging, color change and chalking. Estimated one kit per 4,000 sq ft of siding or 1,600 sq ft of trim.

Color-Matched Caulk

OSI® QUAD® MAX sealant offers a high-performance sealant solution to color match Statement Collection® products.\* About 18–20 linear feet per tube. Refer to packaging for manufacturer’s recommendations.

\*For matching Dream Collection® products, contact your local James Hardie representative.

TRIM ACCESSORIES

Flat Tabs

Eliminate face nails and improve the aesthetic of trim applications around windows, doors and band boards.

Corner Tabs

Use corner tabs to eliminate face nail holes that would detract from the finished look of corner trim installations.

Scan code to view install and technical documents.

# Hardie® Backer Board

What goes behind the tile matters.  
Choose Hardie® Backer Board.

Every quality tile job should start with the best tile underlayment: the industry-defining fiber cement innovation, Hardie® Backer Board.

Chosen in over 40 million kitchens and bathrooms\*, it's the #1 best-selling tile backer board among trade pros\*\* for a reason. Hardie® Backer Board is the time-tested performance backer that resists cracking under pressure and keeps tile in place.

**SUPERIOR STRENGTH**
