

The MI logo is displayed in white on a red, angled banner in the top left corner of the image.

MI®

The background of the advertisement is a photograph of a modern living room. Large white-framed windows look out onto a swimming pool and a white fence. In the foreground, a black wicker armchair with colorful cushions (red, yellow, and teal) is positioned. To the right, there are several potted plants, including a tall green plant in a terracotta pot and a peace lily in a patterned pot. The floor is made of dark wood, and a light-colored rug is partially visible.

New Construction Windows and Doors

V2000 AND V3000 SERIES

By MITER Brands™

WHY WE'RE THE RIGHT CHOICE.

MI offers beautiful, worry-free windows and patio doors to frame each of life's little moments. Our exacting manufacturing processes and the innovations we develop mean you get reliable windows and doors that perform year after year. With MI, you'll receive a level of service and quality others simply can't match, backed with an industry-leading warranty.

Framing home in a new light

The path to perfect windows and doors has never been more clear. From tranquil mornings to family dinners, MI seamlessly connects you to what matters most: windows and doors that frame life's most meaningful moments.

As a trusted brand for more than half a century, MI offers products that promise long-lasting comfort, protection, and exceptional quality day after day, year after year.

EXPERIENCE IS EVERYTHING

Our experts match you with attractive, reliable windows and patio doors that best fit your home, your needs, and your price point.

CONFIDENCE TO CREATE

We deliver the highest-quality windows and patio doors through our passion for craftsmanship and a relentless pursuit of 100%.

EVERY DETAIL, EVERY DAY

From robust testing and precision manufacturing processes to the innovations we develop for your comfort, every detail matters.

Comparing your options

V2000 Series Single-Hung Model 3500

Featuring a 2 7/8" frame and 3/4" insulated glass, our 3500 single-hung window is a versatile product ideal for any new home construction project. Every 3500 single hung comes standard with removable, dry-glazed top glass; tilt-in, wet-glazed bottom sash; and snap-in sill—making it a builder-friendly window with drywall pass-through functionality on every unit.

V2000 Series Single-Hung Model 4300

With a 3 1/4" frame, 3/4" insulated glass, brickmould profile, and true sloping sill, our 4300 single-hung windows offer the perfect combination of functionality and style for any newly constructed home. Every 4300 comes standard with dry-glazed top glass and tilt-in, wet-glazed bottom sash, offering drywall pass-through capabilities that help keep projects on schedule and reduce jobsite damages.

V3000 Series Double-Hung Model 1556

Our 1556 double-hung window features a 3 1/4" frame, 3/4" insulated glass, beveled exterior, dual-operating sashes, and FlexScreen making it the top choice among homeowners seeking to maximize curb appeal and performance for their newly constructed home. An innovative constant-force balance system that helps eliminate top-sash drift further enhances the convenience and value inherent in every 1556 window.

ABOUT YOUR OPTIONS

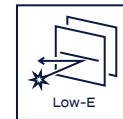

The **warm-edge spacer system** improves the seal performance of our insulated glass units.

Seven distinctive colors allow you to customize and enhance the curb appeal of your home.

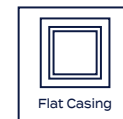

Argon is an invisible gas injected into a glass unit to increase its insulating performance.

A **Low-E** coating is applied to the glass to reflect sunlight away from the home.

Brickmould combines the aesthetic of classic wood trim with the easy care and maintenance of vinyl.

Colonial-style **flat casing** enhances curb appeal by framing your window in a timeless manner.

Our **Limited Lifetime Customer Assurance** warranty is offered **standard** on all products so you can trust your decision and know that we value your business.

* Based on 30/50 with Low-E and argon enhanced glass package.
† White extruded exterior is standard.

ABOUT YOUR OPTIONS

The **warm-edge spacer system** improves the seal performance of our insulated glass units.

A **Low-E** coating is applied to the glass to reflect sunlight away from the home.

Argon is an invisible gas injected into a glass unit to increase its insulating performance.

Impact-resistant products are available with StormArmor™ for additional strength against weather.

Seven distinctive colors allow you to customize and enhance the curb appeal of your home.

Blinds-between-the-glass offer safe and maintenance-free privacy and light control.

Reflect on endless possibilities

Your home is a reflection of you. Make a statement with finishes and glass, and grid options that harmonize with your home's look and style.

GRIDS

Make your home your own personal statement with multiple grid options that allow your style to always be on display. Grids between-the-glass are offered in a variety of profiles and sizes, and match the color of your window frame. Simulated divided lite grids are offered in a white sculptured profile to achieve an historic aesthetic. Grids are available in multiple standard and custom patterns to satisfy nearly any desired look.

BLINDS-BETWEEN-THE-GLASS

This unique option offers a quality solution for window and sliding glass door treatments. The blinds are sealed between two panes of glass, resulting in a longer service life compared to standard blinds while also eliminating the need for dusting. Engineered for ease of use, the internal design makes raising and lowering the blinds simple and intuitive and eliminates the possibility of blinds obstructing the window or door operation.
