By MITER Brands™

V3000

WHY WE'RE THE RIGHT CHOICE.

MI offers beautiful, worry-free windows and patio doors to frame each of life's little moments. Our exacting manufacturing processes and the innovations we develop mean you get reliable windows and doors that perform year after year. With MI, you'll receive a level of service and quality others simply can't match, backed with an industry-leading warranty.

Framing home in a new light

The path to perfect windows and doors has never been more clear. From tranquil mornings to family dinners, MI seamlessly connects you to what matters most: windows and doors that frame life's most meaningful moments.

As a trusted brand for more than half a century, MI offers products that promise long-lasting comfort, protection, and exceptional quality day after day, year after year.

EXPERIENCE IS EVERYTHING

Our experts match you with attractive, reliable windows and patio doors that best fit your home, your needs, and your price point.

CONFIDENCE TO CREATE

We deliver the highest-quality windows and patio doors through our passion for craftsmanship and a relentless pursuit of 100%.

EVERY DETAIL, EVERY DAY

From robust testing and precision manufacturing processes to the innovations we develop for your comfort, every detail matters.

Take your home to the next level

You'll find long-lasting aesthetics and energy efficiency with our V3000 Series windows. A top-of-the-line selection of windows and sliding patio doors, the V3000 Series is ideal for your next replacement, remodel, or new home construction project. With a wide array of operating styles and aesthetic options, you'll easily find a V3000 Series window or door that suits your style.

“THEY’RE PERFECT FOR THE
HIGH-END, EXECUTIVE-STYLE
HOMES THAT WE SPECIALIZE IN.”

- Mullica Hill, NJ

Innovations that endure

Boasting the latest in 21st-century technology, our V3000 windows and sliding patio doors are thoughtfully crafted for performance, durability, and convenience. The unique features built into our V3000 Series help improve the long-term performance of our products and give you peace of mind for years to come.

CONVENIENCE AND RELIABILITY

BLINDS-BETWEEN-THE-GLASS

Our unique blinds-between-the-glass option offers a quality solution for window and patio door treatments that eliminates the possibility of children or pets getting entangled in cords. These high-quality blinds are sealed between two panes of glass, resulting in a longer service life compared to standard blinds while also eliminating the need for dusting.

- **Simple.** Single operator allows you to raise, lower, and tilt blinds for optimal sun and privacy control.
- **Clean.** No-slip gear belt provides smooth operation.
- **Balanced.** Self-leveling bottom rail auto-adjusts if blinds become unbalanced.

Laminate Only

Hardware color will match interior frame color selection of white, almond, or clay. On-screen and printed color representations may vary from actual finish colors.

FRAME OPTIONS

Buying windows doesn't have to be complicated. MI makes it simple, from the planning stages through project completion. We'll help you understand which frame type suits your project needs and home style.

Finless

Commonly used for replacement projects, this window inserts into your existing frame, leaving interior and exterior trim undisturbed.

Fin

Nailing fins are often used for new home construction or renovations with exposed studs. The fin is fastened directly to the rough opening.

Flange

The flange on the exterior of the window covers and seals the frame on homes with stucco and is most commonly used with masonry block.

TRIM OPTIONS*

Brickmould and flat casing are hallmarks of the classic American home. These exterior trim packages are installed in a factory-controlled environment and backed by an industry-leading warranty, providing a virtually maintenance-free window. Our brickmould and flat casing trims provide timeless style and are a great way to enhance the curb appeal of your home.

OUR APPROACH

Our windows insulate as well as elevate, tirelessly working to seal out the elements and create homes that are protected, comfortable, and quiet. The path to perfect windows and doors has never been more clear.

Window features

1 DUAL-OPPOSING LOCKS

Dual-opposing locks on hung and horizontal sliders create a stronger, safer seal, giving you added security and peace of mind.

2 ENERGY EFFICIENCY

Designed to block infrared rays and increase your window's energy efficiency, V3000 Series products are available with Low-E or high-performance Low-E glass options.

3 WARM-EDGE SPACER

Composite spacer system is 88% less conductive than metal spacers, enhancing comfort and thermal performance.

4 CONSTANT-FORCE BALANCE

Low-friction, constant-force balance is seven times quieter than competitive balances for smoother, easier operation.

5 BUILT TO PERFORM

The welded, multi-chambered frame and sash enhance durability and improve energy efficiency.

“THE VIEWS THROUGH
OUR SLIDING PATIO DOOR
ARE GREAT. IT MAKES THE
VIEW FROM THE DINING ROOM

ENERGY EFFICIENCY

Our products are designed to meet and often exceed ENERGY STAR® standards in the climate zones we serve. Our warm-edge spacers help to lower conductivity, improve argon gas retention, and increase condensation resistance. Low-E coatings help reflect the sunlight away from your home, maintaining interior temperatures.

What is Low-E?

Low-E glass blocks the bad stuff and lets in only the light you want.

GRIDS

Grids between the glass add style and allow for easy cleaning. Simulated divided lites (SDL) create a more historical look, while simulated meeting rails (SMR) can create a consistent look among varying operating styles.

2" Simulated Meeting Rail

The image is a vertical split. The left half has a red overlay and contains text. The right half shows a large, white-framed window unit being tested on a complex metal frame. The window is held in place by several orange clamps. The metal frame is made of blue-painted steel beams with numerous bolts and brackets. The background is a light-colored wall.

OUR COMMITMENT TO YOU

We have a dedication to quality and build our windows and patio doors to last. With the V3000 Series, you're covered for as long as you own your home with our industry-leading limited lifetime warranty. Glass Breakage Coverage is standard on select models and available as an optional upgrade on other models.

miwindows.com/warranty

OUR GOAL IS 100% TROUBLE-FREE

With a goal of 100% trouble-free, our teams work tirelessly to help ensure your project stays on track.

From regular inspections and quality audits throughout the manufacturing process, we strive to ensure that the final product you receive meets our high standards.

In addition, most MI windows and patio doors carry the American Architectural Manufacturers Association (AAMA) Gold Label to show they have met their strict requirements, which are tested and certified by a third party. This rigorous testing includes: water penetration, air leakage, structural integrity and forced entry resistance.
