MERRILLAT CABINETRY

A GREAT AMERICAN STORY

Merillat® cabinetry was started in 1946 by Orville and Ruth Merillat. It began with Orville making cabinets by hand, and through decades of innovation, growth and unwavering commitment to the customer, Merillat cabinetry became the #1 cabinetmaker in America.

Merillat

BASICS™

— COLLECTION —

Popular looks and storage essentials built for everyday living. With the latest door styles, design elements, and finish options at prices customers can afford, Merillat Basics can do more for less.

BUILT TO LAST

Durable Standard Construction

- 1 Constructed to withstand daily use** Durable end panels ($\frac{3}{8}$ ") firmly secured with both wood-to-wood glue and staples
- 2 Moisture resistant** Natural woodgrain laminate interiors help reduce damage from potential spills or condensation
- 3 Strong frames** Solid wood creates a stable, long-lasting foundation ($1\frac{1}{2}$ " wide and $\frac{3}{4}$ " thick)
- 4 Reinforced perimeter** Engineered wood ($\frac{1}{4}$ ") backing extends all the way to the floor adding strength to rear cabinet corners
- 5 Top-down construction** Base hangrails, also made from quarter-inch engineered wood, stretch across the cabinet top helping bolster the work surface
- 6 Consistent structure** Engineered wood I-beams ($\frac{3}{8}$ ") are dadoed into the side panels to help keep cabinets square and maintain structural integrity
- 7 Dependable storage** Engineered wood drawers ($\frac{1}{2}$ ") feature natural woodgrain laminate interiors can be upgraded to Dovetail construction
- 8 Reliable components** Self-aligning, side-mounted white drawer guides ($\frac{3}{4}$ ") hold up to 75 pounds and can be upgraded to SoftAction for a quiet close
- 9 Additional support** Locking, solid-hold, under-shelf clips provide ample support; cabinets over 33" in width include support cleats
- 10 Sturdy shelves** Half-inch engineered wood shelves showcase natural woodgrain and require no shelf paper
- 11 Elegant function** Cabinet doors are integrated with SoftAction functionality so every close is whisper quiet

SELECTING A FINISH

Paint

Thicker than stain, paint provides greater coverage of wood grain, knotholes, and natural color variations to deliver consistent, even coloring and a sleek look ideal for modern designs. With paint, you can enjoy a variety of color choices and more ways to express your style to create a look all your own.

What is Paint-Grade Substrate?

When paint is selected, the drawer front, door stiles, door rails and/or door center panel may be constructed of a paint-grade substrate, a material that helps provide resistance to warping, expansion and contraction.

Stain

Love the natural look of wood? Our beautiful stains can subtly enhance your cabinets' color, grain texture, and unique characteristics to make the most of what's already there: Merillat-certified solid birch wood. Stain is especially well suited for traditional or rustic styles, where the warmth and earthy tones of wood play a key role.

Laminate

For a clean look that can withstand even the most active kitchen environments, consider the durability of laminate. Less susceptible to spills, splashes and stains from grease, dirt and more, laminate cabinets and countertops make messy manageable and can be cleaned in no time. Plus, they're UV-resistant, so you can enjoy lasting color that always looks like new.

Together with you,

WE CREATE POSSIBILITIES
