— COLLECTION —

Popular looks and storage essentials built for everyday living. With the latest door styles, design elements, and finish options that fit any budget, Merillat Basics can do more for less. Learn more at [Merillat.com](https://Merillat.com).

## DURABLE CONSTRUCTION

**1 Constructed to withstand daily use:** Durable end panels (3/8") firmly secured with both wood-to-wood glue and staples

**2 Moisture resistant:** Natural woodgrain laminate interiors help reduce damage from potential spills or condensation

**3 Strong frames:** Solid wood creates a stable, long-lasting foundation (1½" wide and ¾" thick)

**4 Reinforced perimeter:** Engineered wood (¼") backing extends all the way to the floor adding strength to rear cabinet corners

**5 Top-down construction:** Base hangrails, also made from quarter-inch engineered wood, stretch across the cabinet top helping bolster the work surface

**6 Consistent structure:** Engineered wood I-beams (½") are dadoed into the side panels to help keep cabinets square and maintain structural integrity

**7 Dependable storage:** Engineered wood drawers (½") featuring natural woodgrain laminate interiors can be upgraded to hardwood dovetail construction

**8 Reliable components:** Self-aligning, side-mounted white drawer guides (¾ extension) hold up to 75 pounds and can be upgraded to full extension undermount SoftAction for quiet close

**9 Additional support:** Locking, solid-hold, under-shelf clips provide ample support; cabinets 39" wide and wider include support cleats

**10 Sturdy shelves:** ¾" thick shelves showcase natural woodgrain and require no shelf paper

**11 Elegant function:** Cabinet doors are integrated with SoftAction functionality so every close is whisper quiet
