

METRIE®

**INTERIOR MOULDING & TRIM**

Chicago

# WE ARE METRIE

For nearly a century, we've honed our love of beautiful millwork to deliver solutions beyond measure. Our focus on high-quality products and dedication to providing personalized support have helped us grow from a small, family-owned business into the largest supplier and manufacturer of solid wood and composite moulding in North America.

## EXCEPTIONAL EXPERIENCES, EVERY DAY

We're more than a millwork company. We're a trusted partner serving those in the pursuit of a remarkable home.

Metrie creates high-quality, finely crafted architectural elements that help people transform houses into homes. Because we understand that when you're home, you're whole.

## EXTENSIVE REACH WITH A LOCAL FEEL

Metrie has the broad reach and supply chain expertise of an industry leader with the personal touch of a family business.

We operate six domestic manufacturing facilities between the U.S. and Canada, and we are the largest manufacturer of MDF moulding in North America.

## TAILORED SOLUTIONS

We listen to our customers to interpret trends and solve pain points so we can make it easier for them to succeed.

Our mills allow us the flexibility to provide the right solutions to the markets we serve, understanding regional differences and adhering to strict specification standards.

## STORAGE, HANDLING, AND PREPARATION OF ALL MOULDINGS AND S4S BOARDS

Prior to installation, it is important to acclimate your moulding and trim products by storing them in the installation space for at least 3 days. Wood and wood based products can expand and contract depending on internal and external environmental moisture levels. For best results, be sure to store products in a dry location and transport only if fully protected from water. Keep products clean from dirt and debris and finish according to paint and stain manufacturers' recommendations.

- 1 ARCHITRAVES:** In classical architecture, it described the main beam resting on the tops of the columns. Today it is often used as a decorative moulding for ornamentation or finishing at the top of windows and doors.
- 2 BASEBOARDS:** Baseboards are placed along the wall at the floor. They should be chosen to work in harmony with your casings to finish and tie the room together. Baseboards are usually thinner than the casing.
- 3 BUILD-UPS:** Combining two or more moulding profiles to create a new or custom look. Also called "stacking", Build-Ups make it easy to create the look of custom made trimwork without the high cost.
- 4 CASINGS:** Casings define the overall character of a room and are often the most visible part of the trim. They are used primarily to cover the gap between drywall and the door or window frame. Casings are generally thicker than the base mouldings.
- 5 CROWNS:** Crowns are placed along the wall at the ceiling. They come in a wide range of patterns and sizes. Crowns soften the transition from wall to ceiling while adding a distinctive look and charm to your room.
- 6 FINISH BOARDS:** Finish Boards come in either S4S (Surfaced 4 Sides) or S3S (Surfaced 3 Sides) and are used for a multitude of purposes including shelving, window liner, bases, casing, etc.
- 7 PANEL MOULDS:** Panel Moulds are used to frame wall paneling and add an accent to your walls. Often used in furniture construction.
- 8 WAINSCOT:** Wainscot is trimwork installed in the area below a chair rail. Numerous options are available including raised panel, shadow box and beaded. Combined with a chair rail and baseboard, wainscoting creates a dramatic look to any room.
- 9 WINDOW STOOLS:** Also called "window sill", a Window Stool is the surface installed below the sash of a window. Trim installed under window stool creates a distinctive look and adds a decorative touch.

# ARCHITRAVES

An architrave is a form of trim used to accent the top of a doorway, window or opening. It may also be referred to as a header or pediment. High above windows and doors, architraves work to add grandeur to any space – reducing miter lines and elevating your look. A great architrave is, above all else, the dressing that’s built to impress.

# BASEBOARDS

Great baseboards create a smooth transition from the floor to the wall, guiding you seamlessly from room to room. They work in harmony with your door and window casings, and should be slightly thinner than your casing for a proper installation.

## CASINGS

Casing is used generously in spaces and is often the most visible moulding in a room. Casings are primarily used to go around a door or window, covering the gap between drywall and the door or window frame. Casings are generally thicker than base mouldings, they bring a room together: left to right, top to bottom. And like any framing element, the options are endless, from build-ups of multiple pieces to full wraps. With casings, there is no wrong way, only your way.

## CHAIR RAILS

Chair rail creates a beautiful room accent that's practical, yet decorative. Applied to a wall anywhere from 24 to 72 inches up from the floor, they can be used to protect the wall from scuffs and dents from the backs of chairs. The chair rail runs along the wall, parallel with the baseboard and is often paired with a wainscot treatment.

# DOOR STOPS

In door trim, a stop is attached to the door jamb on both sides and at the top. It is where the door comes to a rest when it is closed, stopping the door from moving any further and covering the gap that would otherwise appear between the door and the jamb. In window trim, a stop holds the bottom sash of a double-hung window in place and can also be used as an apron under window stools.

# HAND RAILS

Hand rails provide safety, stability and support for staircases and can be paired with a decorative rosette when attached to a wall. Handrails come in many different styles and can be both plowed and unplowed.

Wall rail is attached to a wall with rail brackets along the closed side of a stairway.

METRIE  
complete.

**Pre-Painted Interior Moulding.**

**No Painting Required.**

**METRIE**  
complete.

Metrie Complete® pre-painted mouldings are specially formulated for durability and provide a beautifully smooth, consistent color for professional results.

This patented solution, combined with Metrie's strong distribution and service model, helps builders and contractors save money and increase margins.

### SAVES TIME

Ready to install, pre-painted moulding reduces the number of steps required for installation and allows faster access to the site by other trades.

### SAVES MONEY

Metrie Complete® eliminates the cost of additional labor and supplied while lowering financial costs due to earlier closing

### HIGH QUALITY

Factory finished, smooth surface and color matching system ensures professional results every time.

**YOUR  
PRE-PAINTED,  
READY TO  
INSTALL  
MOULDING  
SOLUTION**

## THE DIFFERENCE IS IN THE DETAILS

- Factory finished, high-quality coating is engineered to enhance durability.
- All moulding products and accessories are Polar White in color for a consistent appearance.
- Non-metal marking finish provides a good protection in handling and transport.
- UV inhibitors, added to the top coat, prevent color variation.
- Color-matched to ensure the perfect match across all moulding elements. (Polar White Color)
- Special additives allow the paint to flex - minimizing paint cracking when moulding is handled.
- Touch-up products are available with everything you need to finish the job.

# ACCESSORIES

Finish your project with polar white accessories for professional results. Won't fade or discolor.

## METRIE COMPLETE® POLAR WHITE SPRAY ENAMEL

Spray Enamel is a color and sheen matched, halo-resisting paint that is used to hide any pre-filled nail holes or miters. The quick-dry formula sprays on evenly and blends with the pre-painted moulding for a flawless finish.

STOCK CODE  
MTEKSPRAY  
(1556516)

## METRIE COMPLETE® POLAR WHITE PUTTY FILLER - 4OZ

Color-matched for use with Metrie Complete® pre-painted products. Our Premium Finishing Putty is a quick and easy way to fill minor seams and voids or to make small cosmetic repairs.

STOCK CODE  
MTEKPUTTY  
(1689835)

## METRIE COMPLETE® POLAR WHITE WAX FILL STICK

Color-matched for use with Metrie Complete® pre-painted products. Our Premium Wax Filler is a quick and easy way to fill in nail holes after installation. It is also ideal for touching up any future blemishes that may occur over the life of the moulding.

STOCK CODE  
MTEKSTICK  
(1556517)

## METRIE COMPLETE® POLAR WHITE CAULKING

Color-matched for use with Metrie Complete® pre-painted products. This sealant should be used to fill joints and gaps between the walls and edges of the trim after the installation.

STOCK CODE  
MTEKCAULK  
(1677701)

## METRIE COMPLETE® SCRAPER CARD

Scraper card used to remove excess product from Metrie Complete® mouldings and boards.

STOCK CODE  
MTEKSCRAPER  
(1556515)

## METRIE COMPLETE® BUFFING PAD

Buffing pad can be used to remove excess wax from the face of the trim.
