## More About Finishes

### Paint

Offering consistent coverage in a variety of rich and striking colors, paint helps designers achieve a uniform look that can modernize any room.

### *Note about painted finishes:*

When paint is selected, the drawer front, door stiles, door rails and/or door center panel may be constructed of a paint-grade substrate, a material that helps provide resistance to warping, expansion and contraction.

### Stain

Ideal for more traditional styles, stain provides warmth and texture by highlighting the unique natural characteristics of our solid birch wood cabinetry.

### Laminate

Perfectly suited for busy kitchens, laminate offers stylish simplicity and welcome durability for a look that lasts.

# Standard Construction

## Wall Cabinets

1. **Finished interiors:** Thick end panels (3/8") add a polished appearance to cabinet interiors
2. **Easy-clean laminate:** Natural woodgrain laminate ensures resistance to moisture and messes
3. **Ready access:** Front frames (1 1/2") with a true three-inch center stile on double doors make content accessibility easy
4. **Integrated framework:** Solid back panels (3/8") are grooved to receive the cabinet top and bottom ensuring 360-degree alignment
5. **Robust design:** Engineered wood hangrails (3/8") are positioned for simple installation on back side of cabinet
6. **KMCA compliant:** Top and bottom panels (3/8") secured with wood-to-wood glue and staples front to back with an additional hot melt security bead along face frame surpasses KMCA requirements
7. **CARB II compliant:** Engineered composite wood regulated and certified to meet reduce emission standards

## Base Cabinets

1. **Constructed to withstand daily use:** Durable end panels (3/8") firmly secured with both wood-to-wood glue and staples
2. **Moisture resistant:** Natural woodgrain laminate interiors help reduce damage from potential spills or condensation
3. **Strong frames:** Solid wood creates a stable, long-lasting foundation (1 1/2" wide and 3/4" thick)
4. **Reinforced perimeter:** Thick, engineered wood (1/4") backing extends all the way to the door adding strength to rear cabinet corners
5. **Top-down construction:** Base hangrails, also made from quarter-inch engineered wood, stretch across the cabinet top helping bolster the work surface
6. **Consistent structure:** Engineered wood I-beams (3/8") are dadoed into the side panels to help keep cabinets square and maintain structural integrity
7. **Dependable storage:** Engineered wood drawers (1/2") feature natural woodgrain laminate interiors can be upgraded to include Dovetail construction
8. **Reliable components:** Self-aligning, side-mounted white drawer guides (3/4") hold up to 75 pounds and will be upgraded to SoftAction full extension undermount guide when selecting dovetail core.
9. **Additional support:** Locking, solid-hold, under-shelf clips provide ample support; cabinets over 33" in width include support cleats
10. **Sturdy shelves:** Half-inch engineered wood shelves showcase natural woodgrain and require no shelf paper
11. **Elegant function:** Cabinet doors are integrated with SoftAction functionality so every close is whisper quiet
