Design Your Door

Homeowners can research and design a door with their own personal touch – all from the convenience of home.

To get started, visit
thermatru.com/design-your-door.

Using this Guide

For simplicity, all examples shown are 3'0" x 6'8" single doors. More sizes and configurations are available. For different surfaces, glass designs and other options, see the Full-Line Catalog or visit thermatru.com.

Blending styles and spaces.

Today's homes blur the lines between modern, casual and traditional styles as each design borrows elements from the others. Decorative accents that make a statement tend to set the tone for the overall aesthetic, giving the space a modern, casual or traditional vibe. Across the board, nature-inspired details and modern influences are cropping up as homeowners seek out simplicity.

Indoor and outdoor spaces are also blending together as the feeling of home extends beyond four walls. Outdoor spaces reflect personal style, indoor environments bring comfort and security, and the entryway bridges these two elements seamlessly.

Choose a door that brings out the best of your home's style. It starts with a stylish front entry door from Therma-Tru.

Make a smart investment.

Make a great first impression.

A front door is nearly impossible to ignore when walking into a home, and for potential homebuyers, first impressions are critical. How attractive a home is from the exterior tends to set expectations for the interior and beyond.

In fact, in a recent survey, **44% of homeowners said they were more likely to purchase a home with an enhanced entry**, and one in three homeowners said they were willing to pay a premium for one.*

After

1 in 3

One in three homeowners said they were willing to pay a premium for an enhanced entry.*

*Not a guarantee of investment returns, increase in value or selling price. See 2021 Therma-Tru National Home Valuation Study surveying real estate agents about perceived remodeled home value estimates based on exterior appearance. Not based on actual home sales data. Results may vary based on region, door style and home style. Study was commissioned by Therma-Tru and conducted by the Farnsworth Group, an independent research provider.

Home begins at the door.

Choosing a fiberglass entry door system can help increase your home's curb appeal, especially when you select a style that complements exterior architectural details.

Choose Your Door

Explore a selection of wood-grained and smooth surfaces to find the perfect look.

The Classic Craft® Series

Our premier engineered-to-last entryways showcase remarkably authentic wood grains and textures. Explore three curated collections inspired by the latest trends to bring your home design vision to life.

Artissa Collection

Casual | Relaxed | Simple

Founders Collection

Traditional | Time-Honored | Decorative

Visionary Collection

Modern | Confident | Minimal

Fiber-Classic® Collections

The industry's first fiberglass door delivers the look and feel of real Mahogany and Oak with excellent performance and value.

Mahogany Collection

Oak Collection

Smooth-Star®

A smooth, ready-to-paint fiberglass door that offers excellent performance and value.

Pulse®

A contemporary series of door styles and glass designs that can be combined to make a bold statement.

All Fiber-Classic, Smooth-Star and Pulse fiberglass doors are backed by a lifetime limited warranty.

Choose Your Opening

If you're replacing your door and doing a very simple remodel, you might not be able to modify your existing configuration. But if you're doing a more extensive remodel, or building new, think about adding sidelites or a transom. Your Therma-Tru seller can help you decide which one best meets your needs.

Choose Your Glass

Adding glass to your door will maximize the beauty and curb appeal of your entryway. Choose from a variety of decorative glass options or opt for grilles, blinds, clear or energy-efficient Low-E glass. Our glass collections offer a variety of privacy levels and coming options to fit your personal style.

Choose Your Finish

Handcrafted and professionally applied in a controlled environment, PrismaGuard® premium finish is built to last, giving you confidence and peace of mind.

Therma-Tru is proud to partner with Yellowstone Forever, the official nonprofit partner of Yellowstone National Park. Select colors in our PrismaGuard portfolio are inspired by the beauty found in Yellowstone National Park. Look for the () symbol.

*Product approvals show that the door system meets applicable codes when selected, assembled and installed as instructed.

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. See your Therma-Tru seller for details on the PrismaGuard warranty and exclusions. See your Therma-Tru Seller or visit www.thermatru.com for product approvals and installation instructions. Always confirm building code requirements in your area before buying. Follow weather and news reports to assess severe weather situations and obey local authorities' shelter and evacuation orders. No product guarantees safety for persons or property, nor makes any premises hurricane- or impact-proof.

PrismaGuard® Paint

Delivers a pop of color, allowing you to tailor the look to make a beautiful lasting impression.

Color matches available.

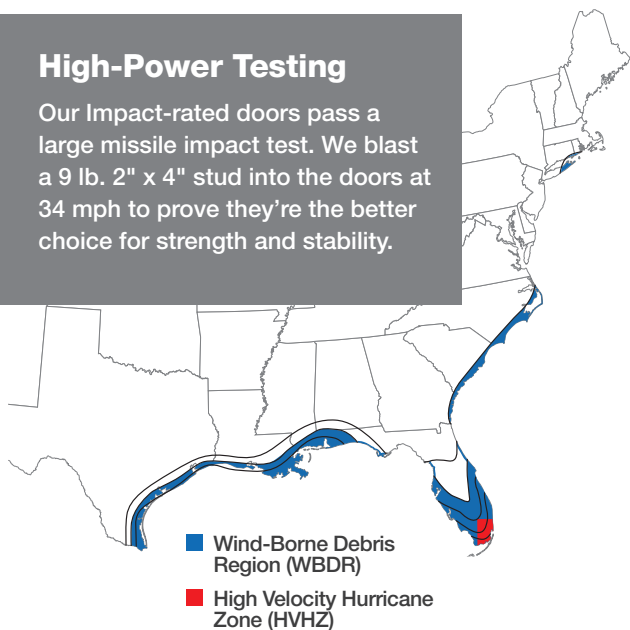

Explore other products from Fortune Brands Outdoors designed to match select colors shown here. Look for the (🐦) symbol. See your Therma-Tru seller for details.

Additional Options

Therma-Tru offers Impact-rated doors and glass that can be used to meet high-wind and coastal region codes and regulations, offering excellent performance in extreme weather conditions while providing added protection. Always confirm building code requirements in your area before buying.*

High-Power Testing

Our Impact-rated doors pass a large missile impact test. We blast a 9 lb. 2" x 4" stud into the doors at 34 mph to prove they're the better choice for strength and stability.

Modern Home Styles

Eclectic Style with a Modern Touch

Other Inspired Entries

Therma-Tru is more than just entry doors. Discover multiple options for how you can update any entrance of your home.

Explore a variety of entry solutions designed for seamless indoor-outdoor living, including patio and storm doors and retractable screens.

Whether you're designing your front entry, expanding your patio, or replacing your house-to-garage door, a door system from Therma-Tru is an upgrade in comfort, energy efficiency and performance.

Discover a variety of fiberglass entry solutions designed for indoor-outdoor living around the house.

Hinged Patio Door Systems

Simply beautiful, any way you see it.

Extend the beauty and quality of a Therma-Tru® entrance to the back of the home with hinged patio doors. Find style and convenience that's unsurpassed from any view with options to control the level of privacy and light, complement window patterns, and let fresh air into the home.

Retractable Screen Doors

A breath of fresh air.

Discover a retractable screen solution with a discreet, hidden design – providing a seamless transition from indoors to outdoors. The Therma-Tru retractable screen door allows fresh air and natural light inside while keeping debris and insects out. Plus, it's been quality tested for compatibility with Therma-Tru entry door systems.

Utility & Side Doors

Consider all entrances.

The front entryway isn't the only door on a home. Whether your additional entry leads into your kitchen, mudroom or hallway, you want that door to be durable enough to handle daily traffic, and reflect your personal style.

Designed for peace of mind.

Engineered to work together.

A Therma-Tru door with genuine Therma-Tru components is more than a beautiful door – it’s a complete door system. Therma-Tru manufactures or specifies every aspect – from the glass to the hinges – all engineered with craftsman precision for durability and reliability through the years.

Learn more about our system components at thermatru.com/system-components.

Lifetime Limited Warranties

We stand behind more parts and for longer than most other door companies because we make or specify everything that goes into our door system. A Therma-Tru fiberglass door system is backed by comprehensive lifetime limited warranties.

Quality Testing

Our doors, glass and components undergo thorough testing to help ensure they will live up to a homeowner’s toughest quality and performance expectations.

We even have our own engineering lab – approved to perform specific test methods with a third-party witness* – as part of our ongoing commitment to ensuring that our products live up to our high standards for durability and reliability.

Energy Efficiency

In any region or climate, energy efficiency is key. More than 80% of Therma-Tru doors and glass options – thousands of choices – are ENERGY STAR® qualified**, helping save money on energy costs.

*Manufacturer’s test Facility Quality Assurance Validation Program, Architectural Testing, Inc.

**Based on version 6.0 ENERGY STAR product specification for windows, doors and skylights.

Note: See your Therma-Tru seller or visit www.thermatru.com for details on available product sizes and options, limited warranties and exclusions, and installation instructions.

TOGETHER, LET’S MAKE A WORLD OF DIFFERENCE.

We’re doing our part to build a better world, every chance we get. Therma-Tru Thrive is our commitment to make safe and sustainable products, support the communities where we live and work, and leave a positive, lasting impact on the environment.
