FIBERGLASS & STEEL DOOR SYSTEMS

LIFETIME LIMITED WARRANTY

We place a lot of emphasis on achieving the highest level of customer satisfaction. That's why Therma-Tru fiberglass door systems carry a lifetime limited warranty. Should any issues arise during or after installation, we'll address them in a professional, timely manner.

Classic Craft
Transferable

Fiber-Classic,
Smooth-Star, Pulse
Fiberglass

Entryways come to life with Therma-Tru® glass.

Choose a Therma-Tru door system with glass for a beautiful, durable entrance that showcases your high standards for style, quality and craftsmanship. Our wide array of glass designs — from simple to intricate — features selections to complement any home.

We have decades of experience and technical know-how in creating quality glass designs that deliver optimal performance. Numerous glass textures, shapes, colors and coming options complement any Therma-Tru door, and provide flexibility to match your personal style.

Our decorative glass is handcrafted and built with all-glass bevels. All interior and exterior glass, including Low-E and clear glass, are laminated or tempered for added safety.

Year-round comfort, no matter the weather.

Choosing a fiberglass entry door system can help increase your home's curb appeal, especially when you select a style that complements exterior architectural details.

In cold weather, Low-E glass reflects a home's heat back inside to help keep the home warm.

In warm weather, Low-E glass reflects the sun's rays off the glass and a home's air conditioning back inside to help keep the home cool.

ENHANCED FOR ENERGY EFFICIENCY

Advanta® Lite Frame

Clear and privacy glass now include options that meet ENERGY STAR® requirements in all 50 states, featuring triple-pane construction with a Low-E coating.

Flush-Glazed Glass

Select configurations are now available with triple-pane Low-E clear and privacy glass options to meet ENERGY STAR requirements in all 50 states.

Note: See your Therma-Tru seller or visit thermatru.com for details on ENERGY STAR qualified products.

Classic Craft®

PREMIUM GLASS

CLASSIC CRAFT
PREMIUM GLASS

STANDARD GLASS

- Close attention to detail produces truly distinctive designs you won't find anywhere else.
- More than 10% wider glass¹ welcomes more light into the home and creates a distinctive entryway.
- Fiberglass lite frames are made with the same material as the door to blend seamlessly with the rest of the entryway when stained or painted.
- Most glass options feature triple-pane construction that helps increase energy efficiency.
- All sidelites are made with flush-glazed glass for a truly seamless, consistent appearance. The flush-glazed process integrates the glass into the door providing a high-performance weather seal.
- Any Therma-Tru® glass added to a Classic Craft entryway is covered by the same comprehensive transferable lifetime limited warranty. This warranty can be transferred one time to a new owner, should you ever sell your home.

¹Comparison of Classic Craft to other standard fiberglass doors with similar styles. Visit thermatru.com for details.

Note: See your Therma-Tru seller or visit thermatru.com for details on limited warranties and exclusions.

CLASSIC CRAFT®

Homeward™

The balanced Mission-style pattern of Homeward invites light to cascade through its distinctive clear bevels, seeded glass and gray artque glass. An ideal complement for a Transitional home design.

Fiber-Classic®, Smooth-Star®, Profiles™, Traditions and Pulse® Doorglass

Therma-Tru. Fiber-Classic, Smooth-Star, Profiles, Traditions and Pulse doors offer a variety of decorative glass options designed to meet any taste. This selection is inspired by various home and architectural styles, from Victorian to Contemporary. And whether you need greater energy efficiency or privacy, there's an option to suit you.

GREAT STYLE FOR ANY HOME

- 16 decorative glass designs offer a look that matches any home and homeowner's style.
- Invite light into the home for a more brilliant interior with flush-glazed designs featuring 25"-27"-wide glass, or 22"-wide glass in a Lip-lite frame.
- Low-E glass is available for internal blinds, divided lites and clear glass, providing exceptional energy efficiency.

TRIPLE-PANE CONSTRUCTION

All triple-pane decorative, privacy and textured glass panels are enclosed between tempered glass, offering superior quality and thermal performance.

Note: See your Therma-Tru seller or visit thermatru.com for details on ENERGY STAR qualified products.

GRID PATTERNS⁴

Lite Frame | Divided Lite Options

Simulated Divided Lites (SDLs) with Grilles Between Glass (GBGs)

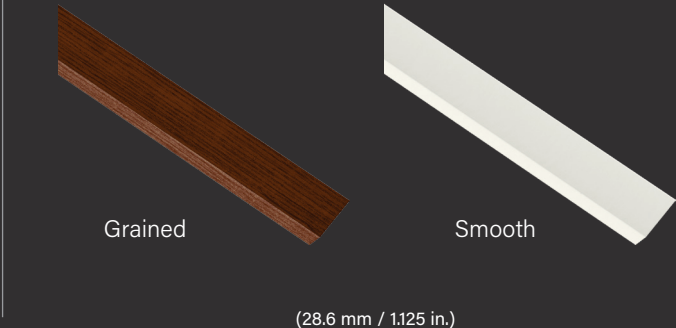

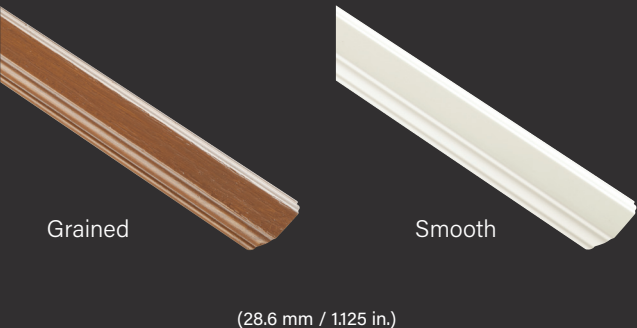

- SDL bars are adhered to the interior and exterior panes of tempered glass.
- SDL bars layered over GBGs create a more authentic divided lite look.
- Wood-grained or smooth textures can be stained or painted any color to complement the door and home.
- We recommend applying SDLs over bronze GBGs with flat bars to achieve the most authentic divided lite look.

Simulated Divided Lites (SDLs)

- SDL bars are adhered to the interior and exterior panes of tempered glass.
- Wood-grained or smooth textures can be stained or painted any color to complement the door and home.

SDL BAR OPTIONS

Available with privacy and textured, or clear glass.

¹Almond and Bronze GBGs available in flat bars only.

²Available for smooth doors only.

³See your Therma-Tru seller for a complete list of bars and configurations available for each door collection. Please see divided lite options for Classic Craft on page 16.

Available in select
flush-glazed styles.
See page 37.

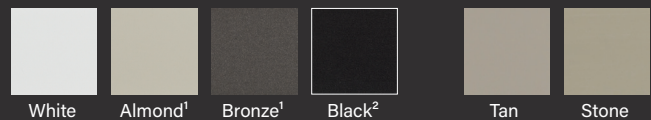

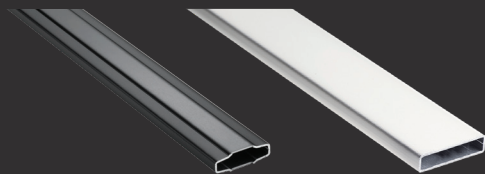

Grilles Between Glass (GBGs)

- Thermally sealed between two panes of tempered glass.
- Get a divided lite look with the convenience of a smooth, easy-to-clean glass surface.
- Choose contour bars for a traditional look or flat bars for contemporary appeal.

Fixed Grilles

- Molded as part of the lite frame on the interior and exterior panes of tempered glass.
- Can be stained or painted to complement home décor.

CONTOUR & FLAT GBG OPTIONS

Special Quote

GRID PATTERNS³

Internal Blinds

Internal blinds provide the privacy and convenience of a cordless blind enclosed between glass. Control the desired level of light and privacy with a single handle that opens, closes and tilts the blinds.

- Protected between two panes of tempered glass for enhanced safety and performance.
- With no dangling cords, this is a kid- and pet-friendly choice.
- Blinds remain dust free, and glass is easier to clean than traditional blinds.
- Privacy bars eliminate visibility into or out of the home, as well as reduce sun glare.
- Choose Low-E glass for exceptional energy efficiency, or standard clear glass.
- Flush-glazed glass and Impact-rated options available.

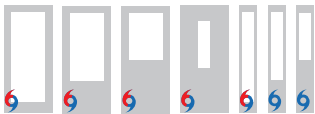

Product images show interior side of door.

Flush-Glazed Glass

FOR CLASSIC CRAFT®, FIBER-CLASSIC® & SMOOTH-STAR® DOORS & SIDELITES

Intentional design for exceptional performance — sleek flush-glazed glass provides increased energy efficiency¹ and superior sound dampening. Choose beautiful glass built directly into the door, protected by a comprehensive warranty that covers accidental glass breakage during construction or installation.

Warranty riders for peace of mind.

Flush-Glazed Rider for Construction & Installation

Provides protection in case of accidental glass breakage during residential and multi-family construction or installation. Therma-Tru will replace the flush-glazed fiberglass door or sidelite.

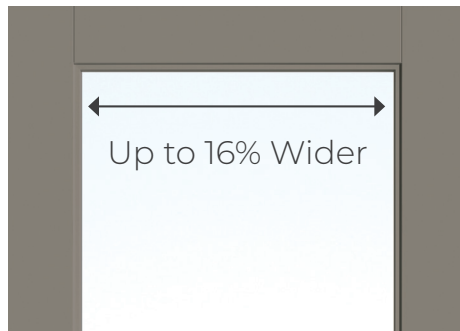

Flush-Glazed Rider for Homeowners

Provides protection in case of glass-related failures due to manufacturer defect. Therma-Tru will furnish \$300 toward installation and replace the flush-glazed fiberglass door or sidelite.

¹Comparison of U-factor values of a flush-glazed full-lite door and a Lip-lite full-lite door, both with Low-E glass.
²Must be installed as part of a Therma-Tru door system in compliance with a Therma-Tru product approval.
Note: See your Therma-Tru seller or visit thermatru.com for details on limited warranties and exclusions.

Maximum views.

Create an airy, open feeling in the home with larger daylight openings. Flush-glazed glass offers up to a 16% increase in visible glass area than conventional lite frames.

Flush-Glazed Glass

Lip-Lite Frame

SEE THE DIFFERENCE

Flush-glazed glass provides a simple profile with no added embellishments around the glass.

**Flush-Glazed Glass
with Detailed Sticking**

**Flush-Glazed Glass
with Square Sticking**

Lip-Lite Frame

Durable by design.

Double- or triple-pane glass is built directly into the door with a high-performance dual adhesive weather seal. This delivers a clean seamless look with no lite frame or screw plugs, and reduces the potential for air and water infiltration, among other benefits.

Superior Sound Dampening

Doors with flush-glazed glass do a better job of dampening outside noise compared to a Lip-lite alternative.

11% More Energy Efficient

The Low-E glass used in flush-glazed doors delivers a clear view and is 11% more energy efficient than 1/2" Low-E glass in a Lip-lite frame.¹

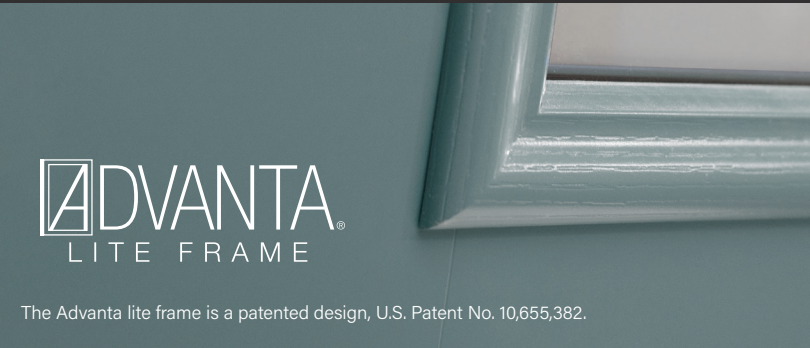

Withstands Winds Up to 167 mph

Door systems with flush-glazed glass are designed and tested to withstand wind forces up to 167 mph (DP-50).² (ASTM-E330)

Lite Frames

Therma-Tru® doors and sidelites are available with select lite frame options to complement the door's overall aesthetic. For Impact-rated lite frame , see page 45.

Advanta® Lite Frame

With a patented design, Advanta lite frames deliver a clean look with no unsightly screw plugs to detract from the entry's overall aesthetic.

Scan the QR code or visit thermatru.com/advanta for more details about construction, available sizes and product options.

Standard Lite Frame

With a variety of sizes and shapes to choose from, our standard lite frame features a weather-resistant material and plugs designed to cover the screws.

¹Must be installed as part of a Therma-Tru door system in compliance with a Therma-Tru Impact-rated product approval. Some multi-lite door style configurations are approved for WBDR and HVHZ, see your dealer for details. Visit thermatru.com for product approvals. Follow weather and news reports in order to assess severe weather situations and obey local authorities' shelter and evacuation orders. No product guarantees safety for persons or property, nor makes any premises hurricane- or impact-proof.

²Product approvals show that the door system meets applicable codes when selected, assembled and installed as instructed.

Impact-Rated Glass 6

Therma-Tru's Impact-rated glass meets coastal region codes and regulations¹ offering excellent performance in extreme weather conditions while providing added protection.

- Used for products in coastal applications, Therma-Tru measures the resistance of the glass to flying debris by firing a 2" x 4" wood stud at a speed of 34 mph to help prevent damage inside the home from severe weather.
- Available in 14 decorative glass options, 7 privacy and textured designs, as well as internal blinds and clear glass.
- Special laminated glass construction helps protect the interior of the home.
- Tested to meet code requirements in coastal areas, including parts of Florida, Texas, and North and South Carolina.²
- Some glass and door configurations are available for use in High Velocity Hurricane Zone (HVHZ) and Wind-Borne Debris Regions (WBDR).
- Designed to withstand wind forces up to 175 mph (DP-55) for high-wind and coastal applications when paired with an approved Therma-Tru HVHZ Impact-rated door. Able to withstand wind forces up to 167 mph (DP-50) in a Therma-Tru non-HVHZ Impact-rated door.
